### The Universe Next Door

A writer investigates her family's secret history, uncovering a story that spans a century, two World Wars, and three generations. Hadley Freeman knew her grandmother Sara lived in France just as Hitler started to gain power, but rarely did anyone in her family talk about it. Long after her grandmother's death, she found a shoebox tucked in the closet containing photographs of her grandmother with a mysterious stranger, a cryptic telegram from the Red Cross, and a drawing signed by Picasso. This discovery sent Freeman on a decade-long quest to uncover the significance of these keepsakes, taking her from Picasso's archives in Paris to a secret room in a farmhouse in Auvergne to Long Island to Auschwitz. Freeman pieces together the puzzle of her family's past, discovering more about the lives of her grandmother and her three brothers, Jacques, Henri, and Alex. Their stories sometimes typical, sometimes astonishing—reveal the broad range of experiences of Eastern European Jews during Holocaust. This thrilling family saga is filled with extraordinary twists, vivid characters, and famous cameos, illuminating the Jewish and immigrant experience in the World War II era. Addressing themes of assimilation, identity, and home, this powerful story about the past echoes issues that remain relevant today.

### Embracing Heaven & Earth

### From the Presocratics to the Present

From his early childhood, author Floyd Funk was a dreamer and a romantic, wanting the most excitement and fulfillment he could get out of life. In *My God/My Father*, he shares forty years of his life story. His memoir recounts his pastoral and bittersweet small-town,

Midwestern upbringing— culminating in the shocking revelation of his parental abduction at the age of eleven. From that point his life is irrevocably altered and we follow him on his trial-and-error road of re-unification, both with his family and with his own identity. Funk shares how his saving grace was his faith in God, the one who helped him conquer his demons and break through the chains that held him down for years. This is Floyd's testament to the unyielding presence of God through many years of broken relationships, false starts, and painful self-realization.

### **Salvage - A Personal Odyssey**

This is the gritty story of one man's lifelong education in the school of hard knocks, as his journey took him from Harlem to the Marines, the Ivy League, and a career as a controversial writer, teacher, and economist in government and private industry. It is also the story of the dramatically changing times in which this personal odyssey took place. The vignettes of the people and places that made an impression on Thomas Sowell at various stages of his life range from the poor and the powerless to the mighty and the wealthy, from a home for homeless boys to the White House, as well as ranging across the United States and around the world. It also includes Sowell's startling discovery of his own origins during his teenage years. If the child is father to the man, this memoir shows the characteristics that have become familiar in the public figure known as Thomas Sowell already present in an obscure little boy born in poverty in the Jim Crow South during the Great Depression and growing up in Harlem. His marching to his own drummer, his disregard of what others say or think, even his battles with editors who attempt to change what he has written, are all there in childhood. More than a story of the life of Sowell himself, this is also a story of the people who gave him their help, their support, and their loyalty, as well as those who demonized him and knifed him in the back. It is a story not just of one life, but of life in general, with all its exhilaration and pain.

## **Soul Reflections**

This CD is the companion for the book *Soul Reflections A Personal Odyssey in Poetry and Paintings*. The poems are powerfully presented by the author Miriam Jaskierowicz Arman and each poem is accompanied by original compositions for Cello by Mme. Johanne Perron. This is an outstanding production with nothing else like it on the market. The combination of the extraordinary poetry, recently nominated by the National Center For Jewish Cultural Arts for the Pulitzer Prize- and the haunting accompaniment of original compositions, which musically underscore the Authors readings, create a deeply emotional, sensitive and spiritual atmosphere, lending total artistic expression to both art forms. No Emotion Remains Untouched *Soul Reflections* is Personal, Searching, Probing, Demanding and Reflective *Soul Reflections* is brilliant, honest, descriptive, open, powerful and deep. This book is not for the casual life traveler. No emotion remains untouched. Ms. Arman's work is personal, searching, probing, demanding and reflective. Colored with images and words that cause your imagination to soar. This is a work of truly great importance, deserving and demanding your attention and concentration- because of the message it states profoundly and unpretentiously. She demonstrates that poetry can speak the language of humanity as a whole. The combination of the extraordinary poetry, recently nominated by the National Center For Jewish Cultural Arts for the Pulitzer Prize- and the haunting accompaniment of original compositions, which musically underscore the Authors readings, create a deeply emotional, sensitive and spiritual atmosphere, lending total artistic expression to both art forms.

*Permission to Teach* chronicles forty-one years of teaching in elementary, junior high, and college classrooms. With humor, wit, patience, spontaneity, imagination, and endless persistence, Jeanne Nordstrom faced the challenges some students brought to class on a daily basis: opposition to learning, laziness, and the "you can't make me" attitude. Besides guiding the intellectual development of her students, she also dealt with the impact of forces outside her classroom, including state mandates in curriculum and the ever-increasing testing demands. In this era of exceptional change, the classroom went from chalkboards to computers. In overcoming the challenges--teaching in a construction zone, dealing with demands from administrators, and coping with the death of a cherished coworker--her primary goals focused on student growth: mastering the requisite academic skills, inspiring students to reach for their best, and fostering student self-reliance. Challenges and difficulties in her classroom took a back seat to student excitement when they exclaimed,

"Now I get it!" or "Look what I did."

What does it take to leave a good job, your community, your country, and even your continent, and move 4,200 miles away? As financial controller at a top-tier bank in The Gambia, Kevin Kingsley-Williams was provided a house, a maid, a car, club memberships, and other perks of corporate life. But after experiencing the 1994 military coup, he immigrated in January of 1997 to Toronto, where the thermometer registered minus 10 degrees Celsius. Once in Canada, Kevin immediately hits a series of snarls as he attempts to build a new life. Getting a job requires an address, but getting an address requires proof of employment. He is found "lacking in Canadian experience" yet also deemed to be "overqualified." Having misjudged the effectiveness of his footwear, he is forced to wander a shopping mall in his socks—yet the ski mask and parka he wears in a desperate attempt to stay warm cause potential employers, landlords, and bankers to view him with alarm. Join Kevin as he adjusts to a new world, where apartments that were for rent a few hours ago are "unavailable" when he arrives to look at them and phrases such as "digging out" take on new meaning after the first snowstorm. Kevin offers, with his humor and perseverance, a fresh perspective on the challenges of the immigrant experience.

## **Ithaca Is the Journey**

As an actress, Marsha Mason has had a varied and very successful career. Winner of the Golden Globe award as best actress and a four-time Academy Award® nominee, she has worked in film (perhaps most notably in the movies Cinderella Liberty, Chapter Two, and The Goodbye Girl), television (most recently as Sherry on Frasier), and the theater (having performed in London's West End, on and off Broadway, and in regional theater around the U.S.). While the path she followed to achieve her success was seldom an easy one, Marsha Mason never wavered in her determination. She wanted to be an actress -- that much she knew even as a young girl growing up in a modest neighborhood in St. Louis. For her, acting would be an escape, a chance to be someone other than the girl who seemed always to disappoint and anger her parents, the ticket that would take her out of their provincial,

strict Catholic household and transport her to another world somewhere between reality and fantasy. Now, in *Journey*, Marsha Mason retraces the path she followed out of her difficult childhood. She moved to New York City, where she worked as a waitress and go-go dancer before landing a role in the then popular daytime TV soap opera *Love of Life*. After that, her world started to change, as one success led to another. The biggest change, however, came when she met Neil Simon, Broadway's most successful and powerful playwright, the creator of such long-running shows as *Barefoot in the Park* and *The Odd Couple*. Cast in his play *The Good Doctor*, Mason found herself drawn to the charismatic Simon, who was still struggling with the pain of losing his wife, Joan, to cancer. After a brief, whirlwind courtship, they married, and nothing was ever the same. The couple moved to Hollywood so Mason could pursue film work, and Simon began writing a string of films to star his new wife. Her journey had indeed taken her far, as she realized an undreamed-of level of success. There was, however, a price to pay. The marriage to Simon ended so abruptly, and left such a major void, that for quite some time afterward Marsha Mason seemed to have neither direction nor focus in her life. Finally deciding to leave Hollywood and to undertake an entirely different career raising herbs on a ranch in New Mexico, she began a new stage of her journey -- the one that frames this very personal and involving memoir -- by packing up a lifetime of memories and setting off with friends on an odyssey that finds her today a successful farmer with a still active career as an actress. Marsha Mason's *Journey* is revealing of the demands and sacrifices of the life of a successful actress, and at the same time inspiring, as she traces a lifetime spent in search of an elusive happiness. As an adult child of alcoholics, she has come to understand the forces that shaped her life and propelled her along a path that was as inevitable as it was debilitating. And now, from her present vantage point, she is able to look back with a new understanding, one that enables her to take comfort in the success she has found and find joy in learning to celebrate life.

### **Walter Cerf**

Over the course of the intrepid six-year voyage recounted herein, Tristan Jones sailed a small craft on both the Dead Sea in Israel and Lake Titicaca in the Andes, respectively the lowest and highest bodies of water in the entire world. He traversed a distance equal to twice Earth's circumference, and found himself "a thousand times beyond the limits of endurance." He also dodged snipers on the Red Sea, capsized off the Cape of Good Hope, starved on the Amazon, struggled for 3,000 miles against the mightiest sea current in the world, and hauled his boat over the rugged Andes to find the legendary Island of the Sun, beyond which lay the most awesome challenge of all: a torturous odyssey - across 6,000 miles of uncharted rivers - in search of the coast.

This book on Liverpool offers the reader many things: a comprehensive social and cultural history; an insider travel guide; an analysis of the city's people and the places they inhabit; the gripping tale of the Beatles in their Liverpool home and an evaluation of the music that preceded their rise and followed their demise in 1970. An inside view of the Scouser's unbreakable bond with his football team and the pub completes the picture. Neil Deane weaves in his own story after joining the proceedings in 1957, relating his everyday experience of life in his home town until his departure in 1979, after which he continues his autobiographical narrative as a self-exiled, committed observer and frequent visitor. He attempts to explain how and why Liverpool is a city on the edge, different from its northern neighbours, misunderstood and even reviled by sections of the southern establishment, and too often making the headlines for all the wrong reasons. Sweeping away lazy clichés, he aims to get the reader that bit closer to the truth. The book is not a typical tourist guide, more an authentic tale told with love and passion, a personal odyssey with heaven and hell present in equal proportions; however, his final message of optimism is that any stranger visiting Liverpool will be uplifted most of all by its people, ever determined to make sure that heaven wins the penalty shoot-out.

### **Contraception**

Dixie is a political and social history of the South during the second

half of the twentieth century told from Curtis Wilkie's perspective as a white man intimately transformed by enormous racial and political upheavals. Wilkie's personal take on some of the landmark events of modern American history is as engaging as it is insightful. He attended Ole Miss during the rioting in the fall of 1962, when James Meredith became the first African American to enroll in the school. After graduation, Wilkie worked in Clarksdale, Mississippi, where he met Aaron Henry, a local druggist and later the prominent head of the Mississippi NAACP. He covered the Mississippi Freedom Summer of 1964 and the Mississippi Freedom Democratic Party challenge at the national convention in Atlantic City, and he was a member of the biracial insurgent Democratic delegation from Mississippi seated in place of Governor John Bell Williams's delegation at the 1968 convention in Chicago. Wilkie followed Jimmy Carter's campaign for the presidency, becoming friends with Billy Carter; he covered Bill Clinton's election in 1992 and was witness to the South's startling shift from the Democratic Party to the GOP; and finally, he was there when Byron De La Beckwith was convicted for the murder of civil rights leader Medgar Evers thirty-one years after the fact. Wilkie had left the South in 1969 in the wake of the violence surrounding the civil rights movement, vowing never to live there again. But after traveling the world as a reporter, he did return in 1993, drawn by a deep-rooted affinity to the region of his youth. It was as though he rejoined his tribe, a peculiar civilization bonded by accent and mannerisms and burdened by racial anxiety. As Wilkie writes, Southerners have staunchly resisted assimilation since the Civil War, taking an almost perverse pride in their role as "spiritual citizens of a nation that existed for only four years in another century." Wilkie endeavors to make sense of the enormous changes that have typified the South for more than four decades. Full of beauty, humor, and pathos, *Dixie* is a story of redemption -- for both a region and a writer.

### **To Paris ? with Love**

This is the story of two young men finding their way in the world. It isn't the easiest thing when you either don't have the money or the know how to do it. All these boys had was determination and a higher power to guide them. How else could someone get into so many situations and come out unscathed, and the better for it each time. This book is about learning to do what's right, the strength to overcome all odds despite your circumstances. The most important thing is it doesn't matter where you start, it's where you end up that counts. These boys find out humility is what makes us all stay grounded, and thinking too much of yourself never gets you far. The thought of judging others is out of the question because no two people go through the same experiences or learn the same lessons, you simply make the most out of every journey.

## **Womanpriest**

I am about to embark on my first 'roadshow'. These used to be called 'author speaking tours' until young marketing directors wearing Hugo Boss suits and designer stubbles usurped the older and more staid generation of publishing executives. They 'repackaged' their charges as rock stars rather than presenting them for what they really were: housewives; people with a good idea who got lucky; ferociously talented and highly intelligent younger people; or, as in my case, middle-aged academics. Now, we no longer give talks, we do 'gigs'. Our audiences consist of 'fans'. We are expected to sign autographs and be photographed. Post-presentation questions are as likely to be about aspects of our personal life as about the content of the talk. Although this collection of pieces could loosely be described as a travel book, it is not a conventional travel book. Suns do not set slowly in the West; there are no glistening fjords; wildebeests do not add a majestic presence to the plains, stretching as far as the eye can see, and elegant undergraduates do not glide their punts along the River Cam. You will not find directions to cozy restaurants in the high Pyrenees. Nor will you read descriptions of colourful tavernas on Mykonos where tourists drink to excess, attempt to ape the local dance steps and then fall down. What you will find is an idiosyncratic author tour through parts of Asia and the Americas. You will encounter characters, events, and places in Japan, Thailand, the United States, Colombia, Chile, Argentina, and Brazil that conventional travel books never get to see or touch.
