Just Add Water

This book is written in a new literal genre named New Classic ExPresSionism. You will not only read the written words but also experience their meaning. For example, if I write "summer" you will experience warmth. My work is about Awakening. I wrote it so you could experience it. New Classic exPresSionism (shortly NCE) allows you not only connect with the material presented in the article but also gives you a chance to experience it. For example, if I am writing about Awareness, you not only understand what I am writing about but also experience it despite its meaning that can be logical, or illogical, or just a rumble. Basically, you become Aware so you can understand fully not only the content but also the context and the real meaning of it. Similarly with other meanings like Emptiness or Suchness or Enlightenment Such

writings can be done if the writer has full understanding of what she or he is writing about. So it has to be based and backed up by a long practice which allows to completely experience the written words. The words have to carry their full meaning which can be achieved by practicing of what it is written about. Words not only have a meaning but their form (the way they are written) becomes a meaning too. Words and the way they are written make them almost like paintings. Form becomes a meaning and meaning remains a meaning. This way meaning is liberated from the form as form becomes a meaning too. When the meaning is liberated, free, it can take any possible shape which will be its form and the form this way is seen as empty. This is also a definition of pure form that has been looked for by artists from the beginning of the existence of art. ."

From the best freestyle surfer in the world, an inspiring and moving memoir about his ascendance to the top of the surfing world while struggling for most of his young life with undiagnosed Asperger's syndrome Clay Marzo has an almost preternatural gift with a surfboard. From his first moments underwater (he learned to swim at two months old) to his first ventures atop his father's surfboard as a toddler, it was obvious that Marzo's single-minded focus on all things surfing was unique. But not until late in his teens, when this surfing phenom was diagnosed with Asperger's syndrome, did the deeper reasons for his obsession--and his astonishing gift for surfing--become clear. Just Add Water is the remarkable story of Marzo's rise to the top of the pro surfing world--and the personal trials he overcame in making it there. Marzo endured a difficult childhood. He was a colicky baby who his mother found could be soothed only with water. Later, as he entered school, his undiagnosed Asperger's made it tough for him to relate to his peers and fit in, but his relationship with the wave was elemental. Marzo could always turn to surfing, the only place where he truly felt at peace. Unflinching and inspiring, Just Add Water is a brave memoir from a one-of-a-kind surfing savant who has electrified fans around the world with his gift and whose story speaks boldly to the hope and ultimate triumph of the human spirit.

Journal

As evil runs rampant in America and the rest of the world waves of fear and dishonesty are sweeping over us causing us to not know who to trust. Friends are turning against friends, neighbors against neighbors, and family against family. What we need are sweat drops of mercy for an eternal living God to cover our lives and give us peace for today and hope for tomorrow. The poems in this book were written to encourage us to remember that there is a "Holy God" who loves us, has a plan for us, and walks with us through the fire. Our American heritage is based on this foundation. As life-changing topics of our day loom before us, they have been discussed here through the eyes of hope in our Lord and Savior, Jesus Christ, looking to that glorious day when the trumpet will sound and we will then be with Him in Glory forever. Wounded warriors, 9-11, respect for our President, even our National Anthem are being called into question. As each topic is discussed it is with the realization that these "Moments of Mercy" need a direct touch of mercy from a high and holy God. How do you view these issues of the day? Be the one who nurtures and builds. Be the one who has an understanding and forgiving heart. Be the one who looks for the best in people. Leave people better than you found them. Take a stand for TRUTH before it is too late. "I am the way, the TRUTH, and the life. No man comes to the Father but by me." John 14:6 KJV

spirituality flowing from the lessons she learned from nuns in grade school, makes the ingredients of her life come together. Just as recipes bring the tastes of regional palettes to life through the choice of specific ingredients, Just Add Water brings the author's childhood to life by immersing itself in her history's specific details. She recalls at one point, "I transformed into the Flash, running very fast out the back door, under and through the laundry, pulling some of it down to the cement ground as I ran with superhuman speed. I looked back on the rest of the laundry swinging in the warm breeze as I made my escape around to the convent with the nuns. I could hear the Italian Madman cursing and screaming all our family's dirty laundry out loud for all the neighbors to hear." Just Add Water: A Memoir does not shy away from the uncomfortable details of the author's life, but rather, it immerses them in the waters of spiritual insight, transforming them into a hearty soup.
