### Bing: Beige Is Not A Color

"Beige sounds like an easy color to define, but it is not," says architect John Mochelle. "Most people think it is a dull shade of very light tan. However, it is the colorful undertones that give various shades of beige their personality. For example: The Spruce Best Home Macrame Beige. It has a sweet hint of peach that adds character to walls.

### **Beige Is Not A Color**

Beige is variously described as a pale sandy fawn color, a grayish tan, a light-grayish yellowish brown, or a pale to grayish yellow. It takes its name from French, where the word originally meant natural wool that has been neither bleached nor dyed, hence also the color of natural wool. It has come to be used to describe a variety of light tints chosen for their neutral or pale warm appearance.
