### It's Not Always Black and White

The world can be a funny old place at times. But hey, it's the only one we have. So we'd best put on our best smiles, and our best foot forward. In the time-honoured tradition of the black-and-white artist, Australian illustrator Kate Knapp throws light on some of life's dark dilemmas.

### Goethe's Theory of Colours

### Monochrome Home

Color surrounds us: the lush green hues of trees and grasses, the variant blues of water and the sky, the bright pops of yellow and red from flowers. But at the same time, color lies at the limits of language and understanding. In this absorbing sequel to *Chromophobia*—which addresses the extremes of love and loathing provoked by color since antiquity—David Batchelor charts color's more ambiguous terrain. *The Luminous and the Grey* explores the places where color comes into being and where it fades away, probing when it begins and when it ends both in the imagination and in the material world. Batchelor draws on neuroscience, philosophy, novels, films, and artists' writings—as well as his own experience as an artist working with color—to understand how we see and use colors. He considers the role of color in creation myths, industrial chemistry, and optics, and examines the particular forms of luminosity that saturate the modern city. Following this inquiry into the hues that we face every day, he turns to one that is both color and noncolor: grey itself, which he reveals is as much a mood, feeling, and existential condition as a shade that we experience with our eyes. Deftly argued, always thought-provoking, and ever entertaining, *The Luminous and the Grey* is a beautiful study of how we see and feel our multicolored world.

### Sharpen Your Discernment

By beginning a conversation that encourages self-examination and compassion, *Combined Destinies* invites its readers to look at how white Americans have been hurt by the very ideology that their ancestors created. Editors Ann Todd Jealous and Caroline T. Haskell, both experienced psychotherapists skilled at facilitating dialogue about racial issues, are cognizant of the challenges that even the thought of such conversations often presents. Their book is based on the premise that for

positive and lasting change to occur, it is necessary to open hearts as well as minds. This courageous anthology posits that unearned privilege has damaged the psyche of white people as well as their capacity to understand racism. Using intimate stories, some from writers who have never before spoken of these highly charged issues, Jealous and Haskell offer readers a chance to explore their own experiences. Drawing on the personal and heartfelt stories of diverse contributors, including Robert Zellner, Bettina Aptheker, Deb Busman, Deborah Burke, Joe Ruklick, and Alisa Fineman, *Combined Destinies* is organized thematically, with individual chapters that focus on, for example, guilt, shame, silence, or resistance. The book includes an extensive reader's guide, posing questions for discussion pertaining to each chapter. Anyone who is interested in mental health and spiritual healing will benefit from reading this book, but it's especially suitable for teachers, professors and students of teacher education, the social sciences, and U.S. history, as well as social activists, members of community groups, therapists, clergy, and other members of the counseling profession.

\*Finalist for the 2012 National Book Critics Circle Award for Criticism\* \*A Publishers Weekly Top 10 Literary Criticism and Essays Pick for Spring 2012\* *The Grey Album*, the first work of prose by the brilliant poet Kevin Young, winner of the Graywolf Press Nonfiction Prize Taking its title from Danger Mouse's pioneering mashup of Jay-Z's *The Black Album* and the Beatles' *The White Album*, Kevin Young's encyclopedic book combines essay, cultural criticism, and lyrical choruses to illustrate the African American tradition of lying--storytelling, telling tales, fibbing, improvising, "jazzing." What emerges is a persuasive argument for the many ways that African American culture is American culture, and for the centrality of art--and artfulness--to our daily life. Moving from gospel to soul, funk to freestyle, Young sifts through the shadows, the bootleg, the remix, the grey areas of our history, literature, and music.

A close friendship is one of the most influential and important relationships a human life can contain. Anyone will tell you that! But for all the rosy sentiments surrounding friendship, most people don't talk much about what it really takes to stay close for the long haul. Now two friends, Aminatou Sow and Ann Friedman, tell the story of their equally messy and life-affirming Big Friendship in this honest and hilarious book that chronicles their first decade in one another's lives. As the hosts of the hit podcast *Call Your Girlfriend*, they've become known for frank and intimate conversations. In this book, they bring that energy to their own friendship—its joys and its pitfalls. Aminatou and Ann define Big Friendship as a strong, significant bond that transcends life phases, geographical locations, and emotional shifts. And they should know: the two have had moments of charmed bliss and deep frustration, of profound connection and gut-wrenching alienation. They have weathered life-threatening

health scares, getting fired from their dream jobs, and one unfortunate Thanksgiving dinner eaten in a car in a parking lot in Rancho Cucamonga. Through interviews with friends and experts, they have come to understand that their struggles are not unique. And that the most important part of a Big Friendship is making the decision to invest in one another again and again. An inspiring and entertaining testament to the power of society's most underappreciated relationship, Big Friendship will invite you to think about how your own bonds are formed, challenged, and preserved. It is a call to value your friendships in all of their complexity. Actively choose them. And, sometimes, fight for them.

### The Grey Line

The field of black women's history gained recognition as a legitimate field of study only late in the twentieth century. Collecting stories that are both deeply personal and powerfully political, *Telling Histories* compiles seventeen personal narratives by leading black women historians at various stages in their careers. Their essays illuminate how--first as graduate students and then as professional historians--they entered and navigated the realm of higher education, a world concerned with and dominated by whites and men. In distinct voices and from different vantage points, the personal histories revealed here also tell the story of the struggle to establish a new scholarly field. Black women, alleged by affirmative-action supporters and opponents to be "two-fers," recount how they have confronted racism, sexism, and homophobia on college campuses. They explore how the personal and the political intersect in historical research and writing and in the academy. Organized by the years the contributors earned their Ph.D.'s, these essays follow the black women who entered the field of history during and after the civil rights and black power movements, endured the turbulent 1970s, and opened up the field of black women's history in the 1980s. By comparing the experiences of older and younger generations, this collection makes visible the benefits and drawbacks of the institutionalization of African American and African American women's history. *Telling Histories* captures the voices of these pioneers, intimately and publicly. This book is not part of the 50 Shades of Gray series but is a Bible-based response and devotional book from a Christian perspective. E.L. James trilogy 50 Shades of Gray has sold over 40 million copies. And though wildly popular with Christian readers, the content of the book can be damaging to our view of sex and our relationship with God. This book is not anti-sex. Let's be honest. Sex is good. Sometimes it's even great. It feels good and is the most intimate and expressive way of connecting between a man and a woman. But because it is also one of the least talked about subjects in church, we can view it as a subject that isn't relevant to God or our faith. This book is a Christian response to the best-selling 50 Shades of Grey in an easy to read, 50 day devotional format. These Bible-based readings will help you delve more deeply into what God's Word says about sex, our lives, and our faith in God.

The kimono is the ultimate symbol of Japan, revered within the country as the embodiment of national culture and regarded internationally as an exotic fascination. The iconic garment is often viewed as traditional, unchanging and timeless, but this book counters that conception, presenting kimono as highly dynamic and fashionable items of dress. The cultural and sartorial significance of the kimono is explored in historical and contemporary contexts, both in Japan and in the West, where its impact on clothing styles has been felt since the seventeenth century. Beautifully illustrated, the book features over 250 kimono and kimono-inspired garments from the V&A and collections around the world, revealing its sartorial influence on pop stars from David Bowie to Bjerk and examining the ways in which fashion designers such as Issey Miyake, John Galliano and Alexander McQueen have reworked its legacy.

It became necessary to connect all these incongruous parts and additions by the strangest galleries, halls and passages. All damages, whether inflicted by the hand of the enemy or the power of time, were quickly made good. As occasion required, they deepened the moats, raised the walls, and took care there should be no lack of towers, battlements, and embrasures. This care and these exertions gave rise to a prejudice in favour of the great importance of the fortress, and still upheld that prejudice, although the arts of building and fortification were by this time very much advanced, and people had learnt to construct much better dwellings and defences in other cases. But the old castle was chiefly held in honour because it had never been taken, because it had repulsed so many assaults, had baffled so many hostile operations, and had always preserved its virgin renown. This renown, this influence lasts even now: it occurs to no one that the old castle is become uninhabitable. Its great duration, its costly construction, are still constantly spoken of. Pilgrims wend their way to it; hasty sketches of it are shown in all schools, and it is thus recommended to the reverence of susceptible youth. Meanwhile, the building itself is already abandoned; its only inmates are a few invalids, who in simple seriousness imagine that they are prepared for war. Thus there is no question here respecting a tedious siege or a doubtful war; so far from it we find this eighth wonder of the world already nodding to its fall as a deserted piece of antiquity, and begin at once, without further ceremony, to dismantle it from gable and roof downwards; that the sun may at last shine into the old nest of rats and owls, and exhibit to the eye of the wondering traveller that

labyrinthine, incongruous style of building, with its scanty, make-shift contrivances, the result of accident and emergency, its intentional artifice and clumsy repairs. Such an inspection will, however, only be possible when wall after wall, arch after arch, is demolished, the rubbish being at once cleared away as well as it can be. To effect this, and to level the site where it is possible to do so, to arrange the materials thus acquired, so that they can be hereafter again employed for a new building, is the arduous duty we have undertaken in this Second Part. Should we succeed, by a cheerful application of all possible ability and dexterity, in razing this Bastille, and in gaining a free space, it is thus by no means intended at once to cover the site again and to encumber it with a new structure; we propose rather to make use of this area for the purpose of passing in review a pleasing and varied series of illustrative figures.

Sport is an important part of the lives of rural Papua New Guineans, and a significant connection to global imaginaries for economically marginal villagers. Such grassroots sport, however, is rarely studied and has never previously been the subject of an ethnographic monograph. This book represents a pioneering study of the history and effects of grassroots sport in Papua New Guinea. *We Are Playing Football* explores Panapompom people's attempts to recreate the international game, and the social and subjective effects of this effort. From a raw ethnographic starting-point, the book moves through historical and interpretive materials, exploring the motives, methods and results of Panapompom people's work to recreate global images of football, and to turn them to their own political ends. As the argument proceeds, we see how playing football implicates Panapompom people in circuits of domination, power and humiliation that tether them to colonial modes of control, and derogatory racist identities, which they themselves reproduce in their communities. From its effects on the most intimate self-understanding, through the embodied experience of playing football, to the details of colonial history and the values and ideas underpinning community life, this book offers an original and challenging assessment of what it means to be "globalised." It charts the new outlooks and imaginaries, the disruptions, failures and disappointments, and above all the vital synergies between different people that define the global situation of Panapompom people.

### Black, White and Grey

Life, every day, presents us with its quintessential hurdles. Sometimes we take the white route, other times we take the black route, but most of the time the route is neither white nor black but is grey. A black for one may be white for the other, who's to judge, but the mixture of the two colours, is definitely grey. This collection of eleven short stories basically revolves around emotions and actions we tend to feel and take to overcome the trials of life. The betrayal of a friend, the greed of an employee, the disgust of an old man, the possessiveness of a mother-in-law, the insecurity of a woman, the love of a mother, the jealousy of a sibling, the rashness of the young, the anxiety of a groom, the hope of a beggar or even the despair of a lake, are all but natural emotions, be it 'Black, White and Grey.'

### My Brother Moochie

A rare first-person account that combines a journalist's skilled reporting with the raw emotion of a younger brother's heartfelt testimony of what his family endured for decades after his eldest brother killed a man and was sentenced to life in prison. At the age of nine, Issac J. Bailey saw his hero, his eldest brother, taken away in handcuffs, not to return from prison for thirty-two years. Bailey tells the story of their relationship and of his experience living in a family suffering guilt and shame. Drawing on sociological research as well as his expertise as a journalist, he seeks to answer the crucial question of why Moochie and many other young black men--including half of the ten boys in his own family--end up in the criminal justice system. What role did poverty, race, and faith play? What effect did living in the South, in the Bible Belt, have? And why is their experience understood as an acceptable trope for black men, while white people who commit crimes are never seen in this generalized way? My Brother Moochie provides a wide-ranging yet intensely intimate view of crime and incarceration in the United States, and the devastating effects on the incarcerated, their loved ones, their victims, and society as a whole.

Decorating in black and white is perennially popular and eternally chic. Hilary Robertson demonstrates how, whether used alone or together, these contrasting shades can create dramatic effects at home, from the classic to the eclectic. Sought-after interiors stylist Hilary Robertson celebrates the stylish simplicity of the monochromatic home--elegant interiors in black, white, and every shade of gray in between. In the first chapter, *Living in Black and White*, Hilary analyzes successful monochrome interiors, referring to paint and fabric swatches, and providing moodboards for different schemes. Next, *In the Mix* takes a closer look at the effective tools of texture, light, and scale and pattern and the role that they have to play. The third chapter, *The Dark Room*, visits real homes that feature darker monochrome palettes, while, following on, *Let there be Light* provides examples of homes with a whiter, brighter approach. Finally, in *Monochrome Home* Hilary Robertson shows how to bring the look right up to date, visiting the fabulously inspiring homes of artists and designers from Europe to the US.

A "gray rhino" is a highly probable, high impact yet neglected threat: kin to both the elephant in the room and the improbable and unforeseeable black swan. Gray rhinos are not random surprises, but occur after a series of warnings and visible evidence. The bursting of the housing bubble in 2008, the devastating aftermath of Hurricane Katrina and other natural disasters, the new digital technologies that upended the media world, the fall of the Soviet Union all were evident well in advance. Why do leaders and decision makers keep failing to address obvious dangers before they spiral out of control? Drawing on her extensive background in policy formation and crisis management, as well as in-depth interviews with leaders from around the world, Michele Wucker shows in *The Gray Rhino* how to recognize and strategically counter looming high-impact threats. Filled with persuasive stories, real-world examples, and practical advice, *The Gray Rhino* is essential reading for managers, investors, planners, policy makers, and anyone who wants to understand how to profit by avoiding getting trampled.

Everyone agrees that America is polarized, with ever-hardening positions held by people less and less willing to listen to one another. No one agrees on what to do about it. One solution that hasn ' t yet been tried, says Adam Hamilton, is for thinking persons of faith to model for the rest of the country a richer, more thoughtful conversation on the political, moral, and religious issues that divide us. Hamilton rejects the easy assumptions and sloppy analysis of black and white thinking, seeking instead the truth that resides on all sides of the issues, and offering a faithful and compassionate way forward. He writes, "I don't expect you to agree with everything I've written. I expect that in the future even I won't agree with everything I've written here. The point is not to get you to agree with me, but to encourage you to think about what you believe. In the end I will be inviting those of you who find this book resonates with what you feel is true, to join the movement to pursue a middle way between the left and the right - to make your voices heard - and to model for our nation and for the church, how we can listen, learn, see truth as multi-sided, and love those with whom we disagree."
