The Eighties

New York, late summer, 2000. A party in a spacious Manhattan apartment, hosted by a wealthy young activist. Dozens of idealistic twenty-somethings have impassioned conversations over takeout dumplings and champagne. The evening shines with the heady optimism of a progressive new millennium. A young man, Ben, meets a young woman, Kate—and they begin to fall in love. Kate lives with her head in the clouds, so at first Ben isn't that concerned when she tells him about the recurring dream she's had since childhood. In the dream, she's transported to the past, where she lives a second life as Emilia, the mistress of a nobleman in Elizabethan England. But for Kate, the dream becomes increasingly real, to the point where it threatens to overwhelm her life. And soon she's waking from it to find the world changed—pictures on her wall she doesn't recognize, new buildings in the neighborhood that have sprung up overnight. As Kate tries to make sense of what's happening, Ben worries the woman he's fallen in love with is losing her grip on reality. Both intoxicating and thought-provoking, *The Heavens* is a powerful reminder of the consequences of our actions, a poignant testament to how the people we love are destined to change, and a masterful exploration of the power of dreams.

The Collage Ideas Book

Sea State is a candid, astringent - sometimes funny, and occasionally brutal - look at life on the offshore oil rigs of the North Sea, and an explosive portrayal of masculinity, loneliness and female desire. In her mid-30s and sprung out of a terrible relationship, Tabitha quit her job at a women's magazine, left London and put her savings into a six-month lease on a flat in a dodgy neighbourhood in Aberdeen - she was going to make good on a long-deferred idea for a book about oil rigs and the men who work on them. Why oil rigs? "I wanted to see what men were like, with no women around." *Sea State* is on the one handed portrait of an overlooked industry, and a fascinating subculture in its own right: 'offshore' is a way of life for generations of British workers, primarily working class men. Offshore is also a potent metaphor for a lot of things we might rather keep at bay - class, masculinity, the North-South divide, the transactional nature of desire, the terrible slipperiness of the ladder that could lead us towards (or away from) real security, just out of reach. And *Sea State* is, too, the story of a journalist whose distance from her subject becomes perilously thin. In Aberdeen, when she's not researching the book, Tabitha takes pills and dances with a forgotten kind of abandon - reliving her Merseyside youth, when the music was good and the boys were bad. Twenty years on, there is Caden: a married rig worker who spends three weeks on and three weeks off. Alone and increasingly precarious, she dives in deep. The relationship, reckless and explosive, lays them both bare.

The Collage Workbook

My Miniature Library is a kit to make a complete collection of tiny books that you can really read! With stories ranging from illustrated fairytales to well-loved nonsense rhymes and books of butterflies, birds and flowers, plus blank books for you to complete yourself, you'll have everything you need to make a little library of beautifully illustrated books. The books are simple to make - just cut, fold and glue. The kit comes with a miniature bookshelf to press out and make, and easy-to-follow, fully illustrated instructions. Plus the box transforms into a beautiful library scene!

The ONE Thing

Simply Brilliant

Coney Island, 1911: Coralie Sardie is the daughter of a self-proclaimed scientist and professor who acts as the impresario of The Museum of Extraordinary Things, a boardwalk freak show offering amazement and entertainment to the masses. An extraordinary swimmer, Coralie appears as the Mermaid alongside performers like the Wolfman, the Butterfly Girl, and a 100 year old turtle, in her father's "museum". She swims regularly in New York's Hudson River, and one night stumbles upon a striking young man alone in the woods photographing moon-lit trees. From that moment, Coralie knows her life will never be the same. The dashing photographer Coralie spies is Eddie Cohen, a Russian immigrant who has run away from his father's Lower East Side Orthodox community. As Eddie photographs the devastation on the streets of New York following the infamous Triangle Shirtwaist Factory fire, he becomes embroiled in the mystery behind a young woman's disappearance and the dispute between factory owners and labourers. In the tumultuous times that characterized life in New York between the world wars, Coralie and Eddie's lives come crashing together in Alice Hoffman's mesmerizing, imaginative, and romantic new novel.

COSTA BOOK OF THE YEAR AWARD WINNER “ The hidden gem of the year . . . Sensational and gripping, and shedding light on some of the most urgent issues of our time, this was our unanimous winner. ” —Judges of the 2018 Costa Award The extraordinary true story of a young Jewish girl in Holland during World War II, who hides from the Nazis in the homes of an underground network of foster families, one of them the author's grandparents Bart van Es left Holland for England many years ago, but one story from his Dutch childhood never left him. It was a mystery of sorts: a young Jewish girl named Lientje had been taken in during the war by relatives and hidden from the Nazis, handed over by her parents, who understood the danger they were in all too well. The girl had been raised by her foster family as one of their own, but then, well after the war, there was a falling out, and they were no longer in touch. What was the girl's side of the story, Bart wondered? What really happened during the war, and after? So began an investigation that would consume Bart van Es's life, and change it. After some sleuthing, he learned that Lientje was now in her 80s and living in Amsterdam. Somewhat reluctantly, she agreed to meet him, and eventually they struck up a remarkable friendship, even a partnership. The Cut Out Girl braids together a powerful recreation of that intensely harrowing childhood story of Lientje's with the present-day account of Bart's efforts to piece that story together, including bringing some old ghosts back into the light. It is a story rich with contradictions. There is great bravery and generosity--first Lientje's parents, giving up their beloved daughter, and then the Dutch families who face great danger from the Nazi occupation for taking Lientje and other Jewish children in. And there are more mundane sacrifices a family under brutal occupation must make to provide for even the family they already have. But tidy Holland also must face a darker truth, namely that it was more cooperative in rounding up its Jews for the Nazis than any other Western European country; that is part of Lientje's story too. Her time in hiding was made much more terrifying by the energetic efforts of the local Dutch authorities, zealous accomplices in the mission of sending every Jew, man, woman and child, East to their extermination. And Lientje was not always particularly well treated, and sometimes, Bart learned, she was very badly treated indeed. The Cut Out Girl is an astonishment, a deeply moving reckoning with a young girl's struggle for survival during war, a story about the powerful love of foster families but also the powerful challenges, and about the ways our most painful experiences define us but also can be redefined, on a more honest level, even many years after the fact. A triumph of subtlety, decency and unflinching observation, The Cut Out Girl is a triumphant marriage of many keys of writing, ultimately blending them into an extraordinary new harmony, and a deeper truth.

If you want to discover the fun of collage then this fabulous book is the perfect kit. Collage artist Maria Rivans has gathered hundreds of beautiful, quirky, and downright daft images, and they're all here for you to cut out and stick. Flowers, birds, cats, and butterflies can be combined with buildings, eyes, moustaches, and catalog models in dubious pants to create extraordinary original artworks and talking pieces! Maria provides an introduction to collage styles and tips on technique. An ideal activity for young and old, this book is a perfect gift or self-purchase for anyone seeking arty fun and a great deal of sticky silliness!

Project Collage

An updated edition, now fully illustrated and in color, of the classic guide to using common household items to replace, restore, repair, or revive almost anything in your household—including yourself. When you have a household problem, don't run to the store and waste good money, just open your pantry door—and EXTRAORDINARY USES FOR ORDINARY THINGS. You'll be amazed at what you can do with baby oil, bleach, duct tape, tea, rubbing alcohol, and dozens of other handy items. This book will open your eyes to more than 2,000 creative and helpful uses you can make of familiar household products, such as:

- Aspirin can revive a dead car battery and a coating of petroleum jelly will keep the battery's terminals from corroding
- A dab of shaving cream can keep your bathroom mirror from fogging and can remove juice stains on carpeting
- Petroleum jelly makes a great lip balm, makeup remover, and moisturizer
- A turkey baster is the perfect tool for watering Christmas trees and hard-to-reach plants
- Beer can be combed through your hair as a setting lotion, used as lure to trap insects, and polish gold jewelry
- Sandpaper can be used to sharpen needles and scissors, roughen slippery soles of new shoes, remove ink stains and scuff marks from suede, and remove stains on grout lines
- Wax paper will prevent a cast-iron skillet from rusting, restore the nonstick surface on your iron, and use on the bottom of a microwave when cooking messy foods.

If you hate to throw things away or if you delight in dreaming up new ways to use ordinary items, then you'll love the ideas in this book. You'll be amazed at the problems you can solve. It's a book you'll be sure to turn to again and again for helpful ideas, trustworthy advice, and entertaining reading.

The Heavens

Last spring, Pansy chickened out right before going to spring break camp, even though she'd promised her best friend, Anna, they'd go together. It was just like when they went to get their hair cut for Locks of Love, and only one of them walked out with a new hairstyle. But Pansy never got the chance to make it up to Anna. At camp, Anna contracted meningitis and a dangerously high fever, and she hasn't been the same since. Now all Pansy wants is her daring best friend back—not the silent girl in the wheelchair who has to go to a special school. When Pansy discovers that Anna is getting a surgery that might cure her, she realizes this could be her chance—she'll become the friend Anna always deserved—even if it means taking risks, and trying new things (like those scary roller skates). Pansy's chasing extraordinary, hoping she reaches it in time for her friend's

Extraordinary

It was the era of Hawke and Keating, Kylie and INXS, the America 's Cup and the Bicentenary. It was perhaps the most controversial decade in Australian history, with high-flying entrepreneurs booming and busting, torrid debates over land rights and immigration, the advent of AIDS, a harsh recession and the rise of the New Right. It was a time when Australians fought for social change – on union picket lines, at rallies for women 's rights and against nuclear weapons, and as part of a new environmental movement. And then there were the events that left many scratching their heads: Joh for Canberra . . . the Australia Card . . . Cliff Young. In The Eighties, Frank Bongiorno brings all this and more to life. He uncovers forgotten stories – of factory workers proud of their skills who found themselves surplus to requirements; of Vietnamese families battling to make new lives for themselves in the suburbs. He sheds new light on ‘ both the ordinary and extraordinary things that happened to Australia and Australians during this liveliest of decades ’ . The Eighties is contemporary history at its best. ‘ Frank Bongiorno has successfully negotiated the minefield of Australia 's political egos to write the definitive account of an inspired, infuriating decade. ’ – George Megalogenis

One Day

From the author of the critically acclaimed and globally successful The Phantom Atlas, The Golden Atlas and The Sky Atlas comes a stunning new work. The Madman's Library is a unique, beautifully illustrated journey through the entire history of literature, delving into its darkest territories to hunt down the very strangest books ever written, and uncover the fascinating stories behind their creation. This is a madman's library of eccentric and extraordinary volumes from around the world, many of which have been completely forgotten. Books written in blood and books that kill, books of the insane and books that hoaxed the globe, books invisible to the naked eye and books so long they could destroy the Universe, books worn into battle, books of code and cypher whose secrets remain undiscovered and a few others that are just plain weird. From the 605-page Qur'an written in the blood of Saddam Hussein, through the gorgeously decorated 15th-century lawsuit filed by the Devil against Jesus, to the lost art of binding books with human skin, every strand of strangeness imaginable (and many inconceivable) has been unearthed and bound together for a unique and richly illustrated collection ideal for every book-lover.

The 5 Choices

From the author of The Little Black Book of Innovation, a new guide for using the power of habit to build a culture of innovation. Leaders have experimented with open innovation programs, corporate accelerators, venture capital arms, skunkworks, and innovation contests. They've trekked to Silicon Valley, Shenzhen, and Tel Aviv to learn from today's hottest, most successful tech companies. Yet most would admit they've failed to create truly innovative cultures. There's a better way--and it all starts with the power of habit. In Eat, Sleep, Innovate, innovation expert Scott Anthony and his impressive team of coauthors use groundbreaking research in behavioral science to provide a first-of-its-kind playbook for empowering individuals and teams to be their most curious and creative--every single day. Throughout the book, the authors reveal dozens of hacks and habits they've collected from workplaces across the globe that will unleash the natural innovator inside everyone. In addition to case studies of "normal organizations doing extraordinary things," they provide readers with the tools to create their own hacks and habits, which they can then use to build and sustain their own models of a culture of innovation. Fun, lively, and utterly unique, Eat, Sleep, Innovate is the book you need to make innovation a natural and habitual act within your team or organization.

fuel and shelter, but they have been essential to the spiritual and cultural life of civilizations around the world. From Luna, the Coastal Redwood in California that became an international symbol when activist Julia Butterfly Hill sat for 738 days on a platform nestled in its branches to save it from logging, to the Bodhi Tree, the sacred fig in India that is a direct descendent of the tree under which Buddha attained enlightenment, Cook and Jenshel reveal trees that have impacted and shaped our lives, our traditions, and our feelings about nature. There are also survivor trees, including a camphor tree in Nagasaki that endured the atomic bomb, an American elm in Oklahoma City, and the 9/11 Survivor Tree, a Callery pear at the 9/11 Memorial. All of the trees were carefully selected for their role in human dramas. This project both reflects and inspires awareness of the enduring role of trees in nurturing and sheltering humanity. Photographers, environmentalists, history buffs, and nature-lovers alike will appreciate the extraordinary stories found within the pages of Wise Trees!
