Frets are the thin bits of nickel/silver alloy wire protruding from the fretboard. First, look for the dots, they're there to help you. Most guitars have these dot inlays (or some other shape) that help you navigate your way around the fingerboard. Typically they appear at frets 3, 5, 7, 9 at intervals of a tone (2 frets), but this can vary.

Fretboard Memorization: Three Steps to Neck Knowledge

Notes on a Guitar Fretboard Like the chromatic scale, there are really only 12 notes on a guitar's fretboard. The same 12 notes can be found on every string of a guitar, only they are in different positions. The most important notes to learn when first starting out are the natural notes (i.e. notes that are not # or ?).

fretboard. The main reason is because the guitar is so visual that a player can learn everything by patterns and shapes. Patterns and shapes do work to get people playing, but where learners have problems is when they are trying to move patterns to different parts of the neck, change key, transpose and re-finger chords or scales. You need to be able to quickly calculate where a note is on the
