### The Wisdom of Crowds

### The Enemies of Books

In the tradition of Notorious RBG, a lively, beautifully designed, full-color illustrated celebration of the life, wisdom, wit, legacy, and fearless style of iconic American Congresswoman Maxine Waters. "Let me just say this: I'm a strong black woman, and I cannot be intimidated. I cannot be undermined. I cannot be thought to be afraid of Bill O'Reilly or anyone."--Maxine Waters To millions nationwide, Congresswoman Maxine Waters is a hero of the resistance and an icon, serving eye rolls, withering looks, and sharp retorts to any who dare waste her time on nonsense. But behind the Auntie Maxine meme is a seasoned public servant and she's not here to play. Throughout her forty years in public service and eighty years on earth, U.S. Representative for California's 43rd district has been a role model, a crusader for justice, a game-changer, a trailblazer, and an advocate for the marginalized who has long defied her critics, including her most vocal detractor, Donald J. Trump. And she's just getting started. From her anti-apartheid work and support of affirmative action to her passionate opposition to the Iraq War and calls to hold Trump to account, you can count on Auntie Maxine to speak truth to power and do it with grace and, sometimes, sass. As ranking member of the House Financial Services Committee and one of the most powerful black women in America, she is the strong, ethical voice the country has always needed, especially right now. Reclaiming Her Time pays tribute to all things Maxine Waters, from growing up in St. Louis "too skinny" and "too black," to taking on Wall Street during the financial crisis and coming out on top in her legendary showdowns with Trump and his cronies. Featuring inspiring highlights from her personal life and political career, beloved memes, and testimonies from her many friends and fans, Reclaiming Her Time is a funny, warm, and admiring portrait of a champion who refuses to stay silent in the face of corruption and injustice; a powerful woman who is an inspiration to us all.

Tommy Ellis Fisherman completes the Tommy Ellis Trilogy. It is a book written in two parts. Part one takes place in 1963. Tommy is sixteen years old, he has left school and embarks on his first trip as a paid crew member on the trawler Stella Vega. He is the Deckie Learner, (Deck Apprentice), and eager to start work. But how prepared is he for the gruelling eighteen-hour shifts, Icelandic gunboats and a stowaway, all the while under the supervision of the Bosun, a mean obnoxious taskmaster? Part two takes in 1973. Ten years have passed and Tommy Ellis is Skipper. It is January and we follow Tommy and his crew back to the fishing grounds around Iceland. Apart from the freezing Arctic winter temperatures, ice and snow, they must also deal with Icelandic gunboats. It is the Cod Wars. A dangerous and testing time for the fishermen. How does Tommy deal with being fired at as well as attempts to board his trawler?

"Wish you could find giggle-inducing tween books for girls?" "Tired of young teen fiction that drags you down? Then try" *The Day I Washed My Face in the Toilet* A laugh-out-loud novel that's perfect for girls and young teens! All 14-year-old Monica Bloomfield wants is to spend August at a science camp far away from her idiot sister and weird little brother. Trouble is, Monica's being dragged into the wedding party of her crabby old great aunt who lives in England-and if she wants to earn that science camp, she has to keep her siblings in line for the entire trip, plus convince her crazy Grandma to move into a nursing home pronto. Monica's determined to succeed, but things start out badly-and go downhill fast. First, her hyperactive brother overdoses on caffeine right before their eight-hour flight to England. Then a botched wine-tasting party ends so badly that even a policeman is left speechless (and in need of a new uniform). Getting into science camp isn't going to be easy-especially with a rampaging bull, drunk parrot and the most gorgeous guy in the universe standing in her way. *"The Day I Washed My Face In The Toilet"* is a fast-paced tale about a girl trying to have a positive impact on her world and see social injustices corrected-with hilarious results, and one badly-mangled bridesmaid's dress. A Personal Note From The Author: Unfortunately, I came up with the title of this book-and a pretty big chunk of the plot-line-the day I washed my face in a toilet. In my defense, we were living in the middle of nowhere, and a brutal storm had left us with no hydro, no heat, no lights and no running water for almost a week. I was cold and grimy, and by the fifth day I snapped. I pulled the top off the toilet tank and peered in. The water had been sitting there for days, so it smelled really funky. Also, every chain and bobbly thing in there was covered with a thick layer of (and here, I'm using the scientific term) bleck. Still, I was desperate. So I used the slimy toilet tank water and had what was probably the fastest sponge bath on record. Sadly, the curry incident happened to me, too. Shortly before I boarded an eight-hour flight from England to Canada, a friend took me out for a huge curry feast. I'd never had curry, and my intestines weren't sure what to do with the stuff, so they promptly rejected it. I developed a massive case of explosive curry farts. I kept my coat zipped up for the entire flight home, hoping that would hide the smell. It didn't. Toxic gasses trickled out through the neck of the coat, assaulting me and all of the passengers who were stuck sitting around me. Ironically, the coat made the problem worse, because it made me sweat-I was leaking curry

Our choices seal our fate. Hannah Reed is about to learn just how important one little decision can be. Hannah's plans for a nice, quiet senior year of high school are rapidly disintegrating. It all starts when she innocently bursts in on Ethan Flynn in the change room of the clothing store where she works. Ethan's presence in Hannah's world is subtle but constant, and when he saves her life, they become linked by the workings of an ancient society and Ethan's sworn duty to protect Hannah. Working together to figure out what destiny wants with Hannah, the two of them stumble on a baffling mystery that leaves even Ethan questioning what is in store for her future. With Ethan's help, Hannah learns there is far more to this life, to her life, than she ever realized. As they attempt to untangle Hannah's unique past and emerging abilities, an unknown danger from Ethan's past looms ever closer. While racing to put together the pieces of the puzzle before it's too late, Hannah wrestles with the idea that she is anything but average, and that perhaps she is also more to Ethan than just a job. Hleo is the first book in the series with the same name. A story of destiny and how one decision can change everything. When you buy a copy of Hleo, your one decision also has the ability to change the lives of others across the globe. \$3.00CAD from every copy of Hleo purchased goes towards the amazing efforts of the Because I am a Girl Education initiative. ### Escaping Cyprus

Over the hills and far away, a man suddenly finds after being struck by lightning that he is no longer walking in the Cumbrian Fells but is somewhere else entirely. Where that is, however, he does not know. The hills and mountains, lush green forests and the sea pounding at the shore are all unfamiliar and seem to beckon to him, drawing him from the paths and into the land itself. Yet he has little time to familiarise himself with these tantalising new sights and sounds that call to him before an unfortunate accident ends with him destroying a lighthouse and soon after a trading vessel that belongs to a mysterious ruler known only as, "The Keel." Soon he is abducted by the shipwrecked crew and they decide to take him to their master to stand trial for the wanton destruction of his property. There is, however, one problem. The journey overland through the countryside that is a mystery to him will take weeks to cover, and the journey grows hazardous as they walk further across the fertile green plains and mountains of a place he now knows to be called, "Felastia." It all started with the mysterious woman: the red-headed girl who would arrive at his place of work unannounced and ask to be fed. Yet she is more than she looks, for he cannot seem to either shake her from his thoughts, but neither can he find her. She seems to have vanished into thin air. Or has she? But there are others in this land that are waiting for him: mysterious spheres of light that seem to follow his every move, spying on him. There are servants of darkness that seem to be showing an unhealthy interest in him too, for forces are abroad that are seeking him out for purposes known only to themselves, and soon he will find himself embroiled in a war, his part in which is to prove to be the adventure - and journey - of a lifetime. "Lost in Translation" is the first part of "Into the Light," and the start of a new epic fantasy trilogy from Michael White. It is a fantasy adventure for lovers of lands strange and magical where can be found mountains to climb and forests to

enter. Over the hills and far away, Paul has travelled far into the lands of Felastia though he has yet to have his reckoning with the mysterious figure known only as, "The Keel." His adventures have been many and the strange magical land he finds himself in continues to enchant him at every turn. Yet he knows now that there are dangers too in this land of magic and beauty. Marked by the strange Shadow creatures and the Green Man himself, a battle rages within him for dominance, and his reluctance to choose a side sees within him the danger that he may fade and become mist, dispersed by the wind and lost to all. Now though the mysterious woman known only to him as Aoife has been found, and it is time for him to pick a side, for she has great need of him, as do the nations of Felastia, for war approaches, and soon events will combine to over-run them all. "The Road of the Sun" is part two of "Into the Light," a new trilogy from Michael White. It is a fantasy adventure for lovers of lands strange and magical where can be found mountains to climb and forests to enter. "Into the Light" comprises of two books: "Lost in Translation" and "The Road of the Sun."

A Collection of Matt Shaw's heartbreaking dramas Matt Shaw does not just write horror. In fact, when asked what his favourite books are, he often names the tales collected within this set. Stories of heartbreak, loss and grief - all with an element of hope A hope we often forget when dealing with grief. Contained within this collection Heaven's Calling BOY: Built to Love The Missing Years of Thomas Pritchard (unpublished short story) Alone Heaven's Calling Josh and Holly could face anything thrown at them all the time they had each other. Their love would conquer anything and the world was their oyster. But when a tragic accident tears Josh away from Holly she realises that, without her husband, she cannot cope and her world begins to crumble; her loss being more than she can handle. Until, that is, she receives a phone call. Her late husband. The same time every day; he doesn't appear to know what has happened to him and Holly can't bring herself to tell him. She isn't even sure if it really is him calling or whether it's all in her tormented mind. Especially seeing as the calls only happen when she is alone. Is it all in her head, has she gone mad, or is heaven really calling? Boy: Built to Love No parent should have to bury their own child and yet that was exactly what they had to do. Stillborn; a young boy never to open his eyes to take in the world around him. And now Lucy and Jack's marriage was on the verge of crumbling under the strain of the grief they struggled to cope with. A grief made worse when the doctors tell them they'll never be able to have a child of their own due to complications from the last pregnancy. But what if it didn't have to be that way? What if there was a way of using science and technology to create a son they could love? What if Jack was able to use Artificial Intelligence to create A Boy: Built to Love? Is the answer to their problems to be found within the world of science-fiction or are they setting themselves up for yet more grief and sadness? The Missing Years of Thomas Pritchard August 3rd. 6:03am. The tranquil summer's morning was shattered by the desperate screams of Thomas' mother echoing down the near deserted suburban street. The few people milling about outside getting ready for their daily business had said they couldn't make out what the

cries were about when they were interviewed. Not initially. Not until Anne, a pretty woman in her early thirties with shoulder length blonde hair, spilled out onto the street wearing nothing more than her dressing gown and slippers anxiously calling out for her five year old son, Thomas, to come out from wherever he was hiding. Eye witnesses reported Anne was closely followed by her husband Bill - a professional, clean-shaven man in his late thirties with dark, short hair - half dressed for work in his suit trousers and unbuttoned white shirt, and that he too looked just as frantic as the mother did. The year was 2003; the year Thomas disappeared from his home without a trace. \* \* \* \* \* August 3rd. 6:03am. A young, fragile looking hand knocked confidently on the white PVC of the front door to number twenty-two. The hand belonged to a smartly dressed, skinny fourteen year old, fresh-faced boy. Whilst waiting for an answer to his knocking he slid a brown leather satchel off his shoulder down onto the floor as though the weight was too much for him to bear any more. He went to knock again but stopped himself when he heard the sound of footsteps from the other side of the door as the freshly woken homeowner came to answer his initial knocking. There was the slightest of pauses as keys were twisted in locks before the door opened as much as the strong, gold, security chain would permit it to. "Can I help you?" asked the homeowner, a frail looking woman in her late sixties. "Where's my mum?" asked the boy. The year was 2012; the year Thomas came home.

God loves us and has a plan for us. Every human being is a part in that plan. There is opposition in all things, and overcoming trials is one of the most important lessons we can learn. It took me a long time to figure this out and I am grateful for what I have learned. But those lessons did not come without a price. In this little book, I will humbly share some of what I have learned.

again, such is living. In the DOTCOM MARRIAGE ERA. Welcome to the life of Ms Bengal Rani who has set out on one of the most arduous tasks of her life, which is finding a man to marry. Actually happily marry. Now, the most obvious option for her is the booming online shaadi bazaar of our country. Problem solved? Not really. In fact, it gets more twisted here on. A day dreamer, Mr Telecom Raja, with a bucket list so bizarre that can be safely named cringe worthy, or a narcissist Aeroplane Mistri who meets every girl with a pre-conceived notion that she is already smitten. These and more are specimens of the prospective bridegrooms who Bengal Rani is encountering. And with raised eyebrows realising a simple fact of life — All men are not from Mars. Some escaped Black Hole and need to be sent back to it. On urgent basis! Are these the experiences of only one woman? No, for a book like this, a lot of interesting, intelligent and slightly frustrated women need to meet...gossip...and bitch. Are these experiences 100% real? I leave that on you to decide. But then, I rarely lie. So welcome to my Tamasha — a Pandora 's Box of extreme encounters!

Precisely measured equally segmented bars known as Number Rods give four year old children in the Montessori prepared environment the keys to the world of mathematics. By physically counting each segment within a given Number Rod, children receive a clear impression of quantity as an isolated entity. This action combined with guidance from the trained Montessori teacher provides a solid foundation of numbers one through ten in preparation for all future mathematical studies. Written and illustrated by AMI Diploma holder Mary Da Prato, My First Montessori Book of Quantities isolates Number Rods "One" through "Ten" and labels each with its corresponding numerical symbol to reinforce at home the earliest math activities children learn in the Casa.

### The Great Indian Matrimonial Tamasha

This novel is based on true accounts. I have conducted many interviews here in the United States and have traveled to Cyprus for additional research. The atrocities described in the novel are factual. When Turkish soldiers invade his Cypriot village in 1974, twelve-year old Haji witnesses brutal atrocities, including the torturous murders of his father and sister while his pregnant mother was repeatedly being raped. With the help of his beautiful school teacher Rebecca, (dishonored many times by Turkish soldiers) they flee their village only to face constant life-threatening danger wherever they went; as the barbaric Turkish soldiers continue to pursue them. Their struggle to survive the Turkish soldiers and then to erase their horrible memories that haunt them lead to the dramatic ending.

the creator of Elle's "Eric Reads the News," a heartfelt and hilarious memoir-in-essays about growing up seeing the world differently, finding unexpected hope, and experiencing every awkward, extraordinary stumble along the way. "Pop culture – obsessed, Sedaris-level laugh-out-loud funny . . . [R. Eric Thomas] is one of my favorite writers."—Lin-Manuel Miranda, Entertainment Weekly R. Eric Thomas didn't know he was different until the world told him so. Everywhere he went—whether it was his rich, mostly white, suburban high school, his conservative black church, or his Ivy League college in a big city—he found himself on the outside looking in. In essays by turns hysterical and heartfelt, Thomas reexamines what it means to be an "other" through the lens of his own life experience. He explores the two worlds of his childhood: the barren urban landscape where his parents' house was an anomalous bright spot, and the Eden-like school they sent him to in white suburbia. He writes about struggling to reconcile his Christian identity with his sexuality, the exhaustion of code-switching in college, accidentally getting famous on the internet (for the wrong reason), and the surreal experience of covering the 2016 election for Elle online, and the seismic changes that came thereafter. Ultimately, Thomas seeks the answer to these ever more relevant questions: Is the future worth it? Why do we bother when everything seems to be getting worse? As the world continues to shift in unpredictable ways, Thomas finds the answers to these questions by reenvisioning what "normal" means and in the powerful alchemy that occurs when you at last place yourself at the center of your own story. Here for It will resonate deeply and joyfully with everyone who has ever felt pushed to the margins, struggled with self-acceptance, or wished to shine more brightly in a dark world. Stay here for it—the future may surprise you.

The aim of this book is to inspire a better politics: one that will enable future generations to be happier. Greater well-being and better health should be the goals, rather than wealth maximization. We need to value healthcare more than hedge funds, caring above careers, relationships more than real estate. The book is about what makes most of us happier, but it is also about the collective good. We cannot truly be happy if those around us are not happy. The evidence for a successful politics that would promote happiness and health is examined, and policies that take account of this evidence are suggested. Government can and should work to make us happier.

Virtual Earth Graduate is unique. What if many things you think you know about Physics, Earth History and Religion are false? What if this is not our planet and we're not here alone? Are there hybrids here with us? Is Man being visited by 3D Extraterrestrial intelligences? Is someone on the Moon? What would have to be true about planet Earth for it to look the way it does? Who built all the monolithic walls, monuments and buildings that Man cannot even duplicate today? What are the chances that Earth is a Simulation as current Physics proposes? While not 100% conclusive, the evidence is tantalizing. In short Are you really living on the planet you think you are? These and more issues are examined in this book and will enlighten the reader - probably for the first time in years. If you have ever wondered about the Origin of Man, the nature of UFOs, the Apollo Moon Mission and the possibility of intelligence on Mars, Creation versus Evolution, and why nothing certain is known about Man's history backwards of AD 900, then this book is for you. The author has done over 50 years of research into these topics, closely examining Earth History, Quantum Physics, Genetics, and several Religions and more, and has discovered the fascinating answers to what Earth is, what Man really is, why there are sociopaths, why the constants in Science are changing, and what we are doing here on Earth. He does not pretend to have all the answers but those he does have form a coherent and unexpected picture of Man and Earth, in effect connecting almost all the dots. The purpose of this book is to wake up to Man's true nature and divine potential, the real nature of Earth, Moon and Mars, who is here with us, and why we are here so that the new understanding will serve as enough Light to get souls out of here - as Earth Graduates. The book is not a religious book; it just provides a review of Man and his world as catalyst, examining false beliefs, disinformation, assumptions and attachments that bind souls to the planet and in the last few chapters, it provides suggestions for improving one's life, relationships, and above all - the Light (higher consciousness) to get out of here and move on to something more dynamic in the Multiverse we all inhabit. Man must start to think outside the box that was created for him by those who want to be Lords over the Sheep. This book serves to break that entrapment. At the very least, it is also "brain candy," something to contemplate -- take what you can accept and put the rest on the shelf. The book is not meant to be blindly believed, but it will provide hours of things to think about -- and the footnotes for research if you are so inclined. Be sure to read the back cover for other authors' endorsements and a list of what's inside. The Intro also says what is where in the book. The book just went through a major 70-page update (Chapter 4 and Appendix A) in September 2014 and now has the information on UFOs, Moon, and Mars that was kept out of the first published version.

Humanity is a part of Nature, yet every thinking person at one time or another asks herself or himself, "How did we get here? What makes me different from the rest of Nature?" In The Course of Nature an artist and a scientist ask those questions with full respect for all contexts,

both scientific and not. Amy Pollack's figures stand on their own as elegant summaries of one or another aspect of Nature and our place in it. Robert Pollack's one-page essays for each illustration lay out the underlying scientific issues along with the overarching moral context for these issues. Together the authors have created a door into Nature for the non-scientist, and a door into the separate question of what is right, for both the scientist and the rest of us.

The Key of David is a detailed outlay of the fundamental roles each Christian needs to fulfil in being a priest, a prophet and a king. Priesthood has to do with our relationship with God, which is the primary role we carry out. Being a prophet entails receiving revelation from God, and being a king involves ruling and establishing God's kingdom on earth. Living out these three roles in full will enable Christians to fulfil their destinies, and ultimately, the corporate body of Christ will complete God's purpose for it, and God's kingdom will come on earth.

### How John Wrote the Book of Revelation: From Concept to Publication

In the style of New York Times bestsellers *You Can't Touch My Hair*, *Bad Feminist*, and *I'm Judging You*, a timely collection of alternately hysterical and soul-searching essays about what it is like to grow up as a creative, sensitive black man in a world that constantly tries to deride and diminish your humanity. It hasn't been easy being Michael Arceneaux. Equality for LGBT people has come a long way and all, but voices of persons of color within the community are still often silenced, and being black in America is...well, have you watched the news? With the characteristic wit and candor that have made him one of today's boldest writers on social issues, *I Can't Date Jesus* is Michael Arceneaux's impassioned, forthright, and refreshing look at minority life in today's America. Leaving no bigoted or ignorant stone unturned, he describes his journey in learning to embrace his identity when the world told him to do the opposite. He eloquently writes about coming out to his mother; growing up in Houston, Texas; that time his father asked if he was "funny" while shaking his hand; his obstacles in embracing intimacy; and the persistent challenges of young people who feel marginalized and denied the chance to pursue their dreams. Perfect for fans of David Sedaris and Phoebe Robinson, *I Can't Date Jesus* tells us—without apologies—what it's like to be outspoken and brave in a divisive world.

### The Big Book of Rants

The last time Marilyn actually spoke to Benjamin was when she needed to borrow a crayon

that was ten years ago. Benjamin and Marilyn have known each other all their lives. They've gone to the same schools, ridden the same bus, and had the same teachers for as long as either of them can remember. But they aren't friends. It's nothing personal; they just don't have much in common. Benjamin has always been a bit of a geek. Marilyn is shocked when Benjamin refuses to do her one little favor. Boys don't usually say 'no' to her. And okay it actually would have been a pretty big favor. When Marilyn stops by his house to apologize for her behavior she is even more shocked to find that she likes spending time with him. He's still a geek, but he's also funny, thoughtful, and sweet. And she likes the way she feels when they are together. What a surprise that after all these years they can still find friendship. It just goes to show that sometimes you find the best things in the last place you look.

### Congressional Record

How John Wrote the Book of Revelation is the first of its kind, and introduces genetic literary reconstruction to Biblical studies. It enables the reader to produce prior drafts of Hebrew and Christian Scriptures, thereby allowing the reader to apply the literary science of genetic criticism to a book in the Bible. How John Wrote the Book of Revelation takes the most difficult book to understand in the Christian Scriptures and reveals the sequence in which it was written, from the very first line to the final parallel. This provides the reader, for the first time, with the experience of observing how a Biblical book was written, and does this from an intimate perspective, as though they were looking over John's shoulders as he crafted it. How John Wrote the Book of Revelation is the first book that teaches the reader how to read Revelation the way it was written. After centuries of blind guess work trying to divine meaning,

and weak interpretations of symbols, this book finally presents a clear, precise, and consistent method. It is a guidebook to identify all the rich symbols and their meanings within Revelation. Inside the pages of this book is the all-encompassing theory of construction for the book of Revelation. It includes three prior drafts of the book of Revelation, along with hundreds of charts and illustrations. How John Wrote the Book of Revelation is like no other book that has been written before, and sets a new paradigm for all Biblical works.
