### **How to Draw a Basic Manga Character: Body Proportions**

When drawing a manga character, the right proportions are important. You are about 7.5 heads tall. Manga action heroes tend to have more elongated proportions, at least 8 heads tall, often taller. The comparatively small head heightens the dramatic effect of a low viewpoint in the towering 'hero' stance. This is a very different look to the big-headed style of cartoon.

The foundation to drawing a character is the penciled under-drawing. An under-drawing that has somehow gone astray, once penned, ultimately results in artwork that just will not pull together or lacks balance. This volume explains in thorough detail how to handle the pencil, before the pen ever touches the drawing.
