### Humans Synonyms, Humans Antonyms | Thesaurus.com

All humans go through the same life cycle. They are small at the start of their life. Over time they grow bigger and their bodies change. When they are grown up, they often have children of their own.

### Humans (TV series) - Wikipedia

human definition: 1. being, relating to, or belonging to a person or to people as opposed to animals: 2. having the.... Learn more.

### humans

Humans is a science fiction television series that debuted on Channel 4. Written by the British team Sam Vincent and Jonathan Brackley, based on the Swedish science fiction drama Real Humans, the series explores the themes of artificial intelligence and robotics, focusing on the social, cultural, and psychological impact of the invention of anthropomorphic robots called "synths". The series is

### human evolution | History, Stages, Timeline, Tree, Chart

With Katherine Parkinson, Gemma Chan, Lucy Carless, Tom Goodman-Hill. In a parallel present where the latest must-have gadget for any busy family is a 'Synth' - a highly-developed robotic servant that's so similar to a real human is transforming the way we live.

### Humans (TV Series 2015–2018) - IMDb

The genetic sequence of humans is just over 1% different from that of chimpanzees and bonobos. Homo sapiens likely first left Africa because of a sudden cooling of Earth's climate between 60,000 and 70,000 years ago. During Earth's sudden cooling some 70,000 years ago, the human population almost went extinct, with perhaps fewer than 10,000 individuals alive at one point. Load Next Page

## **Humans - On Demand - All 4**

Humans is a mature, high-octane thriller offering emotional intrigue and thought-provoking suspense that should prove irresistible to sci-fi fans while remaining accessible enough to lure in genre

## **HUMANS: Season 1 - Rotten Tomatoes**

In terms of looks, humans have become fatter and, in some areas, taller. Perhaps, then, we could evolve to be smaller so our bodies would need less energy, suggests Thomas Mailund, associate professor in bioinformatics at Aarhus University, Denmark, which would be handy on a highly-populated planet. What will happen to our species in the future? Living alongside lots of people is a new

## **What will humans look like in a million years? | BBC Earth**
