The Unbreakable Boy

While the economy has boomed since the Great Recession, so too have real estate rents and gentrification in cities across North America; nonprofits priced out of formerly affordable neighborhoods lack adequate workplaces to meet their missions. Shared Space and the New Nonprofit Workplace presents a comprehensive overview of shared space as an innovative model and effective long-term solution for nonprofit organizations' need for stable and affordable office and program space. In particular, it focuses on co-locating multiple nonprofits in shared spaces, often called nonprofit centers, with shared services and a collaborative culture. This comprehensive resource provides a practical road map to develop new workspaces; documents benefits for nonprofit staff, organizations, and their communities; presents challenges and solutions from successful nonprofit shared spaces; and considers nonprofit centers' history and future trends. Further, it offers nonprofits an opportunity to engage in forward-thinking practices, such as collaborative service delivery, green building operations, and cross-sector alliances. The book will be useful to nonprofit executives, staff and board members, foundations, philanthropists, real estate and urban planning professionals interested in creating these projects, and researchers and students of the nonprofit sector.

I Still Believe

A NEW YORK TIMES NOTABLE BOOK OF 2020 From award-winning higher education journalist and New York Times bestselling author Jeffrey Selingo comes a revealing look from inside the admissions office—one that identifies surprising strategies that will aid in the college search. Getting into a top-ranked college has never seemed more impossible, with acceptance rates at some elite universities dipping into the single digits. In *Who Gets In and Why*, journalist and higher education expert Jeffrey Selingo dispels entrenched notions of how to compete and win at the admissions game, and reveals that teenagers and parents have much to gain by broadening their notion of what qualifies as a “good college.” Hint: it’s not all about the sticker on the car window. Selingo, who was embedded in three different admissions offices—a selective private university, a leading liberal arts college, and a flagship public campus—closely observed gatekeepers as they made their often agonizing and sometimes life-changing decisions. He also followed select students and their parents, and he traveled around the country meeting with high school counselors, marketers, behind-the-scenes consultants, and college rankers. While many have long believed that admissions is merit-based, rewarding the best students, *Who Gets In and Why* presents a more complicated truth, showing that “who gets in” is frequently more about the

college's agenda than the applicant. In a world where thousands of equally qualified students vie for a fixed number of spots at elite institutions, admissions officers often make split-second decisions based on a variety of factors—like diversity, money, and, ultimately, whether a student will enroll if accepted. One of the most insightful books ever about “getting in” and what higher education has become, *Who Gets In and Why* not only provides an usually intimate look at how admissions decisions get made, but guides prospective students on how to honestly assess their strengths and match with the schools that will best serve their interests.

I Can Only Imagine

A vital exploration of gender politics from a highly influential intellectual who has been described as 'the philosopher of #MeToo' Male entitlement takes many forms. To sex, yes, but more insidiously to admiration, bodily autonomy, knowledge, power, even care. In this urgent intervention, philosopher Kate Manne offers a radical new framework for understanding misogyny. In clear-sighted, powerful prose, she ranges widely across the culture -- from the Kavanaugh hearings and 'Cat Person' to Harvey Weinstein and Elizabeth Warren -- to show how the idea that a privileged man is tacitly deemed to be owed something is a pervasive problem. Male entitlement can explain a wide array of phenomena, from mansplaining and the undertreatment of women's pain to mass shootings by incels and the seemingly intractable notion that women are 'unelectable'. The consequences for girls and women are often devastating. As Manne shows, toxic masculinity is not just the product of a few bad actors; we are all implicated, conditioned as we are by the currents of our time. With wit and intellectual fierceness, she sheds new light on gender and power and offers a vision of a world in which women are just as entitled as men to be cared for, believed and valued.

William S. Burroughs's fiction and essays are legendary, but his influence on music's counterculture has been less well documented—until now. Examining how one of America's most controversial literary figures altered the destinies of many notable and varied musicians, William S. Burroughs and the Cult of Rock 'n' Roll reveals the transformations in music history that can be traced to Burroughs. A heroin addict and a gay man, Burroughs rose to notoriety outside the conventional literary world; his masterpiece, *Naked Lunch*, was banned on the grounds of obscenity, but its nonlinear structure was just as daring as its content. Casey Rae brings to life Burroughs's parallel rise to fame among daring musicians of the 1960s, '70s, and '80s, when it became a rite of passage to hang out with the author or to experiment with his cut-up techniques for producing revolutionary lyrics (as the Beatles and Radiohead did). Whether they tell of him exploring the occult with David Bowie, providing Lou Reed with gritty

The Oak Inside the Acorn

Almost three years ago a beloved fifteen-year-old girl chose to end her life. Her choice led her family on a journey through despair, acceptance, and then hope. Her mother, Jill Ririe, wrote *I Can Only Imagine* to touch the hearts of people worldwide; both those who have considered suicide as an option, and those who have experienced it as a survivor or experienced the loss of a child. This book is also intended to create awareness about the experience of survivors. Suicide is an epidemic in our world, especially among the young. In our nation alone, more people die from suicide than from homicide. For young people 15-24 years old, suicide is the second leading cause of death, behind unintentional injury and homicide. Unfortunately, it is a topic not often acknowledged nor discussed. *I Can Only Imagine* challenges the societal problem of teen suicide, as well as provides proof of God's unfailing love for us; helping us to conquer our fear of death. Jill Ririe has already influenced thousands internationally through her website www.mollisgarden.com which she completed the year following her daughter's sudden passing. On October 24, 2002, Jill was featured on James Van Praagh's show *Beyond* and has gained international attention with her unique story. It is an important story, for awareness and for hope in the unknown. Jill has taken a tremendous emotional and spiritual journey initiated by her grief; a

journey that has led her to know peace and strength in Christ. I Can Only Imagine provides a unique perspective in that it reveals the pain of grief as well as joy in life after death. It differs from other books in that it contains conversations between not only between the author and her daughter through the Holy Spirit since her passing but also with the Lord. It includes a message from Molli to the World. Mrs. Ririe's book is based on God's love for us and addresses many common questions that people have. This book contains true-life miracles that have occurred and shows how to heal from grief and how to experience hope and a sense of normalcy. Overall, it should leave the reader with a new understanding of death, as well as a new outlook on God's love. This is the first book in a series that Jill is writing. The second is projected for early 2005. Her work will concentrate on helping others through their grief, ending the plague of suicide among our youth, and spreading the news of God's joyous miracles. This book will certainly touch your heart and your spirit.

The Merchant of Venice

Born on the fiesta of San Sebastian in her hometown of Lipa Batangas, Romalyn Ante left the Philippines at 16, when her mother - a nurse in the NHS - brought the family to the UK. The poems in her debut collection, *Antiemetic for Homesickness*, are a bridge between these two worlds: lush with the smells and tastes of home back in the Philippines, they piercingly explore notions of identity, homeland and heritage across cultures, languages and the place one calls home. Soaked in a rich landscape of memory, Philippine mythology, and folklore, and studded with Tagalog, her poems speak of the ache of assimilation and the complexities of belonging, but also the healing and restoration that can be found through her work as a nurse. From a talented young poet already garnering prizes and praise, this is a debut alive with vitality and possibility, a feast for the senses, and one that offers a dazzlingly unique perspective on identity in an ever-expanding world.

Shared Space and the New Nonprofit Workplace

Only Imagine offers a new theory of fictional content. Kathleen Stock argues for a controversial view known as 'extreme intentionalism'; the idea that the content of a particular work of fiction is equivalent to exactly what the author of the work intended the reader to imagine.
