Inspired Interiors

From the Third Coast comes this inspirational interiors book by award-winning interior designers Sandra Lucas and Sarah Eilers, who show us how to design inviting homes with a classical backbone that are stylish and versatile for today's living. Native Houstonians Lucas and Eilers's aesthetic marries the entrepreneurial, can-do spirit of the West with Southern grace. The distinctive influences of their hometown--from the architecture of John Staub to the textures and color palettes of the surrounding Texas ranches and expansive landscapes to the impact of futuristic NASA--infuse their design choices. Whether traditional, contemporary, or transitional in style, the rooms they create are timeless. The duo's seasoned insight into the principles and elements of interior design forms the book's heart. Touching on such topics as scale and proportion, color and light, and pattern and texture, they explore their pragmatic, imaginative approach to creating expressive living spaces in a diverse range of projects from coast to coast. They then tour us through several homes, including a comfortable family ski compound in Utah with repurposed rough-hewn wooden beams and custom forged-steel fireplace surrounds; a Houston shotgun home rich with patina; and a charming Gulf Coast beach house. For those passionate about interiors, this wealth of design fundamentals is inspirational.

The New Glamour

Modern Mix

In this artful book, Nicole Hollis shares her beautiful holistic environments, which thoughtfully balance a modern spirit of innovation with a reverence for artisanal craftsmanship. Nicole Hollis's approach to contemporary living is to create timeless interiors that blend seamlessly with the environment. Featured is a wide range of residences in city, country, and coastal settings that masterfully mix the simplicity of line with organic complexity to create refined spaces. A striking home in the Marin County town of Tiburon features natural materials and dramatic touches that embrace the property's sweeping views of the San Francisco Bay. A Kona Coast property set on a lava field reimagines a Hawaiian open-plan sanctuary with a modern design scheme of rich textures, including lava-basalt floor tiles and coral wall blocks. Michele Oka Doner's lighting employs the shape of Kiawe tree branches. A San Francisco pied-à-terre is an elegant contrast study in black and white, infused with historical nuances. These curated spaces are comprised of art, found objects, and bespoke furnishings that underscore Nicole's appreciation of texture, craft, and nature.

The authors in this book ask us to consider whether the perception of beauty has been defined by our genetics and culture over the years - has it grown and changed? Do certain neural connections define our emotional reactions to beauty? Does beauty follow any rules or laws? Can the aspiration toward beauty be detrimental? Can we divorce ourselves from dictates and sink into a mindful connection with our internal beauty? Can we move from the superficial where "beauty is only skin deep" to an intense appreciation of beauty in all of its variations. The Perception of Beauty will lead to a deeper understanding and contemplation of nature, art, and the world around us.
