Drawing the Head

Art Workshop for Children is not just another book of straightforward art projects. The book's unique child-led approach provides a framework for cultivating creative thinking and encourages the wonder that comes when children are allowed to freely explore the creative process and their materials. As children work through these open-ended workshops, adults are guided on how to be facilitators who provide questions, encourage deep thinking, and help spark an excitement for discovery. Children explore basic materials and workshops that use minimal supplies, and then gradually add new materials to fill the art cabinets as well as new skills and more complex workshops. Most workshops are suitable to preschool-aged children, and each contains ideas for explorations and new twists to engage older or more experienced artists. Interspersed throughout are sidebar essays that introduce perspectives on mess-making, imperfection, the role of adult, collaborative art, and thoughts on the Reggio Emilia method, a self-guided teaching philosophy. These pieces underscore the value of art-making with children, and support the parent/teacher/care-giver on how to successfully lead, question, and navigate their children through the workshops to result in the fullest experiences.

Draw Like an Artist

Vincent Van Gogh was born in the Netherlands and today is one of the world's best-loved painters. But during his lifetime, Van Gogh struggled to find fame and fortune through his art, making very little money from his paintings, which now sell for millions of dollars. This book tells the story of Van Gogh's life through his own artworks, and shows how he came to create some of the most famous paintings in the world, including the Sunflowers and Starry Night. Learn about the importance of brotherly love, his struggle to find the right path and the lasting impact he had on the history of art in this book that brings his work to life.

The Case of the Portrait Vandal

Drawing activities, art instruction, and advice for artists and non-artists alike. Urban sketching--the process of drawing on the go as a regular practice--is a hot trend in the drawing world. It's also a practical necessity for creatively minded people in a busy world. In this aspirational guide, self-taught French artist France Belleville-Van Stone emboldens readers to craft a ritual of their own and devote more time to art, even if it's just 10 minutes a day. She offers motivation to move beyond the comfort zone, as well as instruction on turning rough sketches into finished work. Belleville Van-Stone learned how to draw through her own daily practice and knows first-hand how hard it is to find time to incorporate creativity into a busy life. She encourages and teaches us how to do it with advice and guidance such as:

- An A-to-Z list of daily sketch prompts, from airports to bananas, faces to hands, meetings and workplaces
- Tips on what drawing supplies you can and should have--and how to carry them around
- Sections on accepting mistakes, drawing with limited resources, and redefining completion
- Plusses and minuses of going digital, including apps, styluses, and brushes

For those of us who dream of drawing in the minutes between school and work, bathtime and bedtime, and waking and walking out the door, the practical advice in Sketch! is a revelation. By sharing her own creative process, Belleville-Van Stone Sketch inspires artists both established and aspiring to rethink their daily practice, sketch for the pure joy of it, and document their lives and the world around them. Understanding Children's Drawings

A lively, colorful figure drawing instruction book that encourages aspiring illustrators to work in ink and watercolor to create quick, confident renderings of diverse, contemporary people. While today's illustrators work primarily in ink and watercolor, figure drawing instruction still tends to emphasize work in pencil. Commercial illustrator Kagan McLeod offers an approach to figure and portrait

drawing more in keeping with today's preferred tools and techniques, one that focuses on cultivating spontaneity, energy, and confidence by providing exercises for brush work in ink and watercolor. By breaking figure and portrait drawing into the three major aspects of line, tone, and color and recommending time limits for each exercise, McLeod encourages working fast and fearless, rather than worrying about getting your figures just right. Filled with numerous illustrative examples of diverse, modern people, *Draw People Every Day* reflects practical, applicable techniques to get you drawing the people you see in the world around you with speed and proficiency.

The Academic Presentation

"Bring out your children's creativity and imagination with more than 60 kids' art activities from the creator of www.ArtfulParent.com. Art making is a wonderfully fun way for young children to tap into their imagination, deepen their creativity, and explore new materials, all while strengthening their fine motor skills and developing self-confidence. The Artful Parent has all the tools and information you need to encourage your children's creativity through art. You'll learn how to set up an art space, how to talk to children about their artwork, how to choose the best art supplies (without breaking the bank), how to repurpose and organize the piles of art created, and even how to use kids' art activities to soften everyday transitions. The more than sixty engaging kids' arts and crafts projects included here are accessible and developmentally appropriate for one- to eight-year-olds, and they're a far cry from the cookie-cutter crafts many of us did in school as kids. From bubble prints to musical chairs art, these kids' art activities allow children to explore art materials, techniques, and ideas as they grow more creative every day. With activities for downtimes, action art for releasing energy, and recipes for making your own art materials, this book is your guide for raising an artful family"--

Al Smith (1873-1944) was born and grew up in New York's Lower East Side slums and got his start in politics under Tammany Hall sponsorship. Frances Perkins was a New Englander, a trained social worker who became a public figure when Smith appointed her to the New York State Industrial Commission. They shared a concern for working people and a love for the Empire State, which Smith served as governor for four precedent-breaking terms between 1919 and 1928 after serving in the New York State Assembly between 1904 and 1915 as a member and

later as Speaker. Smith considered himself an Assemblyman. His record as governor is based on the solid understanding of politics he acquired in those years. It was also fostered by his encounter, at a decisive stage, with a group of reformers and social workers, including Belle Moskowitz who became his chief political strategist. Smith's own great contribution was to show how reform could be made practicable. As governor, Smith fought a running battle with an obstructive legislature; he was able to reorganize New York State's sprawling executive departments, protect women and children in industry, strengthen workmen's compensation laws and shorten their working hours, stop the handouts of state resources to private companies, and expand recreational areas for the benefit of the public. He cut taxes while building hospitals, schools and low-cost housing developments. When the legislature balked, he appealed to the people on radio, and they responded with avalanches of letters and telegrams to their representatives. The dauntless spirit with which he battled his adversaries earned him the title "The fighting Governor." After his defeat for the Presidency in 1928, Smith was able to hand on to his successor – a comparatively inexperienced politician named Franklin D. Roosevelt – a working state government and a blueprint for social reform which Roosevelt would put to good use. At the time of her death in 1965 Frances Perkins was working on a book about Al Smith as she knew him. Her notes, the few chapters she had written, and the oral history she recorded for Columbia University were turned over to Matthew and Hannah Josephson, who used them and their own exhaustive research to write this biography. "The Josephsons, both authors in their own right were invited to complete the unfinished biography of Smith that Frances Perkins left behind at her death in 1965. Finding only a rather bare start, they ended up writing it '90%' themselves. The sections on Smith's early years provide a delightful picture of the Old East Side and a thriving Tammany Hall. A happily executed portrait of an eminent and engaging American." – Kirkus Reviews "The most thorough study yet available of Smith's career, and one that also pays considerable attention to Frances Perkins' contributions to reform during the Progressive period and during Smith's gubernatorial administrations [a] useful biography of Al Smith." – Joel A. Tarr, *The American Historical Review* "The book reflects the warmth and vigour of its subject. The book's principal contribution is its emphasis on Smith's tremendous effectiveness both as a party leader and as a reformer. His quarter-century of almost continuous success was founded on exceptional memory, intense application, a sharp wit and shrewd appeals to the people. His enduring monuments are his reform of the state administration, his fight against the utilities, and his work in housing, conservation and social reform." – Michael Simpson, *History* "The Josephsons' political portrait is of a man who was at one and the same time an ambitious and successful politician who could skillfully manipulate the party system, reward friends and punish enemies, hold personal grudges, yet temper his actions with genuine humanistic concern for the welfare of the first- and second-generation immigrants for whom he was both spokesman and symbol." – John L. Shover, *The*

Pacific Northwest Quarterly "The Josephsons' biography is comprehensive, providing careful and discerning detail about Smith's life and career." – William W. Bremer, The Wisconsin Magazine of History

Bold illustrations enhance this fun-filled introduction to the different features of the face, the way it is used to communicate with others, and the transformations it can undergo from one moment to the next, based on the actions and feelings of its owner.

Who Stole Mona Lisa?

"The face is characterized by a specific expressiveness and is thus an important part of composition. To be able to draw it correctly requires considerable prior knowledge. One must understand the art of measuring, the rules of perspective and the intricacies of drawing simple forms. The capturing and recreation of character attributes are special challenges requiring knowledge and use of the rules. András Szunyoghy's decades of experience as an artist and teacher predestines him for the compilation of a groundlaying system of rules for the learning of this art. This book provides not only beginners but also advanced artists comprehensive assistance. "

The new kid in school needs a new name! Or does she? Being the new kid in school is hard enough, but what about when nobody can pronounce your name? Having just moved from Korea, Unhei is anxious that American kids will like her. So instead of introducing herself on the first day of school, she tells the class that she will choose a name by the following week. Her new classmates are fascinated by this no-name girl and decide to help out by filling a glass jar with names for her to pick from. But while Unhei practices being a Suzy, Laura, or Amanda, one of her classmates comes to her neighborhood and discovers her real name and its special meaning. On the day of her name choosing, the name jar has mysteriously disappeared. Encouraged by her new friends, Unhei chooses her own Korean name and helps everyone pronounce it—Yoon-Hey.
