About The New Munsell Student Color Set 2nd edition Albert Munsell's system of colour notation has been taught for nearly a century, but the applications and uses of the system are constantly changing. This text teaches the importance of a standardized language to communicate colour and the factors affecting how we perceive it.

The New Munsell Student Color Set (2nd Edition) - Jim Long

The color defined as red in the Munsell color system (Munsell 5R) is shown at right. The Munsell color system is a color space that specifies colors based on three color dimensions: hue, value, and chroma (color purity), spaced uniformly in three dimensions in the elongated oval at an angle shaped Munsell color solid according to the logarithmic scale which governs human perception. In order
