### Merchants and Masterpieces

Art Pepper (1925 - 1982) was described as the greatest alto-saxophonist of the post-Charlie Parker generation. But *Straight Life* is much more than a jazz book ? it is one of the most explosive, yet one of the most lyrical, of all autobiographies, narrated on tape to his wife Laurie. Pepper refuses to tiptoe round many of the unpalatable episodes of a life that involved alcoholism, heroin addiction, armed robberies and five of what should have been his most productive years imprisoned in San Quentin. The result is an autobiography like no other, a masterpiece of the spoken word, shaped into a genuine work of literature.

### The Preference for the Primitive

"The Story of Art is one of the most famous and popular books on art ever published. For 45 years it has remained unrivalled as an introduction to the whole subject, from the earliest cave paintings to the experimental art of today. Readers of all ages and backgrounds throughout the world have found in Professor Gombrich a true master, who combines knowledge and wisdom with a unique gift for communicating directly his own deep love of the works of art he describes." "The Story of Art owes its lasting popularity to the directness and simplicity of the writing, and also the author's skill in presenting a clear narrative. He describes his aim as 'to bring some intelligible order into the wealth of names, periods and styles which crowd the pages of more ambitious works', and using his insight into the psychology of the visual arts, he makes us see the history of art as 'a continuous weaving and changing of traditions in which each work refers to the past and points to the future, a living chain that still links our own time with the Pyramid age'. In its new format, the 16th edition of this classic work is set to continue its triumphant progress for future generations and to remain the first choice for all newcomers to art."--BOOK JACKET. ### Stories of Art

Available in paperback for the first time, Professor Gombrich ' s highly-acclaimed last book offers a revealing insight into the history and psychology of taste. The Preference for the Primitive is a study of the idea that older and less sophisticated ( ' primitive ' ) works are somehow morally and aesthetically superior to later works that have become soft and decadent. Summing up more than 40 years of study and reflection on this theme, this book presents a closely argued narrative supported by extensive quotations that document with precision the role of authors, critics and artists in shaping and changing opinion.

### The Story of Art, Luxury Edition

My mother had just turned ten in mid-1933 when a young woman approached her as they were both leaving Mass at St Joan of Arc's in Brighton. The woman was an artist and she would like to paint her portrait. After her mother's death in 2005, Anne Summers inherits a portrait of her mother as a child. Mesmerised by this image, she finds herself drawn into the story of how the portrait was painted and eventually found its way into her family. She soon learns the artist painted another portrait of her mother; this time as the Madonna. In a gripping narrative that is part art history, part detective story and part meditation on the relations between mothers and daughters, Anne's search for the Madonna painting and the mysterious Russian migr collector who bought both paintings takes her down unexpected paths. Her search soon turns into a parallel quest to rescue Constance Stokes, the artist, from obscurity, and to learn why the collector suddenly abandoned the paintings. Along the way Anne finds she must face the truth of the relationship she had with her mother. In turn hypnotic and moving, The Lost

Mother is a powerful exploration of art, loss and love.

### The Lost Mother

Stories of Art is James Elkins's intimate history of art. Concise and original, this engaging book is an antidote to the behemoth art history textbooks from which we were all taught. As he demonstrates so persuasively, there can never be one story of art. Cultures have their own stories - about themselves, about other cultures - and to hear them all is one way to hear the multiple stories that art tells. But each of us also has our own story of art, a kind of private art history made up of the pieces we have seen, and loved or hated, the effects they had on us, and the connections that might be drawn among them. Elkins opens up the questions that traditional art history usually avoids. What about all the art not produced in Western Europe or in the Europeanized Americas? Is it possible to include Asian art and Indian art in ‘ the story? ’ What happens when one does? To help us find answers, he uses both Western and non-Western artworks, tables of contents from art histories written in cultures outside the centre of Western European tradition, and strangely wonderful diagrams of how artworks might connect through a single individual. True multiculturalism may be an impossibility, but art lovers can each create a ‘ story of art ’ that is right for themselves.

### The Story of Painting

Stories of Art and Artists gathers two centuries of stories from around the world. From Nathaniel Hawthorne's "The Artist of the Beautiful" and Albert Camus's "The Artist at Work" to Bernard Malamud's "Rembrandt's Hat" and Aimee Bender's "The Color Master," the tales collected here range from haunting fables about the power of art to vivid portraits of those who create. Featured art forms include sculpture, pottery, architecture, miniatures, landscapes, portraits, and abstract painting, illumined in brilliant stories by such great writers as Honor é de Balzac, Hermann Hesse, Franz Kafka, Marguerite Yourcenar, John Berger, William Boyd, Doris Lessing, Valerie Martin, Julian Barnes, Orhan Pamuk, and A. S. Byatt. Writers have long been fascinated by the idea of artistic genius, the relationship between portraits and their subjects, the inspirational role of muses, and the effects on artists of ambition, failure, and success. Their dazzling literary evocations of the visual arts-using one art form to reflect on another-make Stories of Art and Artists an irresistible gift for lovers of art of all kinds.

### Art Picture Book

Anne Bogart is an award-winning theatre maker, and a best-selling writer of books about theatre, art, and cultural politics. In this her latest collection of essays she explores the story-telling impulse, and asks how she, as a 'product of postmodernism', can reconnect to the primal act of making meaning and telling stories. She also asks how theatre practitioners can think of themselves not as staggers of plays but 'orchestrators of social interactions' and participants in an on-going dialogue about the future. We dream. And then occasionally we attempt to share our dreams with others. In recounting our dreams we try to construct a narrative. We also make stories out of our daytime existence. The human brain is a narrative creating machine that takes whatever happens and imposes chronology, meaning, cause and effect. We choose. We can choose to relate to our circumstances with bitterness or with openness. The stories that we tell determine nothing less than personal destiny. (From the introduction) This compelling new book is characteristically made up of chapters with one-word titles: Spaciousness, Narrative, Heat, Limits, Error, Politics, Arrest, Empathy, Opposition, Collaboration and Sustenance. In addition to dipping into neuroscience, performance theory and sociology, Bogart also recounts vivid stories from her own life. But as neuroscience indicates, the event of remembering what happened is in fact the creation of something new.

This is the fascinating story of how Scotland has defined itself through its art over the past 5,000 years, from the earliest enigmatic Neolithic symbols etched onto the landscape of Kilmartin Glen to Glasgow's position as a center of artistic innovation today. BBC TV broadcaster and artist Lachlan Goudie passionately narrates the joys and struggles of artists striving to fulfill their vision and the dramatic transformations of Scottish society reflected in their art. The Story of Scottish Art is beautifully illustrated with diverse works from Scotland's long tradition of bold creativity: Pictish carved stones and Celtic metalwork, Renaissance palaces and chapels, paintings of Scottish life and landscapes by Horatio McCulloch, David Wilkie, the Glasgow Boys, and Joan Eardley; designs by master architect Charles Rennie Mackintosh; and collage and sculpture by pop art pioneer Eduardo Paolozzi. Through Scotland's remarkable artistic history, Goudie tells the story of a small country with an extraordinary creative output that influenced significant global movements, such as art nouveau and pop art, while constantly redefining its own practices.

### The Art Book for Children

Taylor's thoughtful discussion of pure forms and our responses to them gives the reader a few useful starting points for looking at art that does not reproduce nature and for understanding the distance between contemporary figurative art and reality.

Gombrich set out to answer in his magisterial The Story of Art. Contemporary art seems totally unlike what came before it, departing from the road map supplied by Raphael, D ü rer, Rembrandt, and other European masters. In The Story of Contemporary Art, Tony Godfrey picks up where Gombrich left off, offering a lively introduction to contemporary art that stretches from Andy Warhol's Brillo boxes to Marina Abramovi& ' s performance art to today's biennale circuit and million-dollar auctions. Godfrey, a curator and writer on contemporary art, chronicles important developments in pop art, minimalism, conceptualism, installation art, performance art, and beyond.
