Marine biologist Tierney Thys, inventor Tan Le, and forest ecologist Nalini Nadkarni delve into the inner workings of our brains to figure out the science be

This Is Your Brain on Drugs - Wikipedia

This is a reminder of the brain's imaginative power: On the blank sensory slate of silence, the mind can conduct its own symphonies. But it's also a reminder that even in the absence of a sensory input like sound, the brain remains active and dynamic.

Uri Hasson: This is your brain on communication | TED Talk

Neuroscientist Uri Hasson researches the basis of human communication, and experiments from his lab reveal that even across different languages, our brains show similar activity, or become "aligned," when we hear the same idea or story. This amazing neural mechanism allows us to transmit brain patterns, sharing memories and knowledge. "We can communicate because we have a common code that
