Contemporary Review

Motown means different things to different people. The mere mention of perhaps the most iconic record label in history is often enough to invoke memories and mental images of Marvin Gaye, Diana Ross, Stevie Wonder, The Temptations, The Jackson 5, The Supremes and numerous others. With each group recalled, there is an accompanying piece of music of the mind, from Baby Love, My Girl, Signed Sealed Delivered, I Heard It Through The Grapevine, ABC and Tears Of A Clown and countless more. Quite often, you can ask people what kind of music they like and they will simply answer "Motown", and both they, and you, know exactly what is meant. Or rather, what is implied. The Motown they are invariably thinking of is the label that dominated the charts in the mid 1960s with a succession of radio friendly, dance orientated hits, most of which were written and produced by the trio of Brian Holland, Lamont Dozier and Eddie Holland. This period is referred to, naturally enough, as the Golden Era, when Motown was not only the dominant force in its home city of Detroit but carried The Sound of Young America all around the world. The kind of music that had them Dancing In the Street from Los Angeles to London, Miami to Munich and San Francisco to Sydney. It was the kind of music that attracted scores of imitators; some good, some not so good. The kind of

music that appealed to the public and presidents alike, and still does. It was that Motown that this book was intended to be about. However, when you start digging deeper into the Motown story, you realise that throughout its life (which, for the purposes of this book, is its formation in 1959 through to its sale in 1988) it was constantly trying other musical genres, looking to grab hits out of jazz, country, pop, rock, middle of the road and whatever else might be happening at the time. Of course it wasn't particularly successful at some of the other genres, although those who claim Motown never did much in the rock market conveniently overlook the healthy sales figures achieved by Rare Earth, the group, and focus instead on the total sales achieved on Rare Earth, the label. This book, therefore, contains biographies of all 684 artists who had releases on Motown and their various imprints, as well as biographies of 16 musicians, 23 producers, 19 writers and 13 executives. There are also details of the 50 or so labels that Motown owned, licensed to or licensed from. All nine films and the 17 soundtracks are also featured. Every Motown single and album and EP that made the Top Ten of the pop charts in either the US or UK also have their own entries, with 222 singles, 84 albums and five EPs being featured. Finally, there are 36 other entries, covering such topics as the Hollywood Walk of Fame, the Motortown Revues, Grammy Awards and the most played Motown songs on radio. The 1,178 entries cover every aspect of Motown and more of the link between Granny in The Beverly Hillbillies and Wonder Woman, of the artists from Abbey Tavern Singers to Zulema, and the hits from ABC to You Really Got A Hold On Me. The Motown Encyclopedia is the story of Motown Records; Yesterday, Today, Forever.

Be sure to check out IRON AMBITION: My Life with Cus D'Amato by Mike Tyson "Raw, powerful and disturbing" a head-spinning take on Mr. Tyson's life. "Wall Street Journal Philosopher, Broadway headliner, fighter, felon" Mike Tyson has defied stereotypes, expectations, and a lot of conventional wisdom during his three decades in the public eye. Bullied as a boy in the toughest, poorest neighborhood in Brooklyn, Tyson grew up to become one of the most ferocious boxers of all time—and the youngest heavyweight champion ever. But his brilliance in the ring was often compromised by reckless behavior. Yet—even after hitting rock bottom—the man who once admitted being addicted "to everything" fought his way back, achieving triumphant success as an actor and newfound happiness and stability as a father and husband. Brutal, honest, raw, and often hilarious, Undisputed Truth is the singular journey of an inspiring American original.

The Golden lectures, sermons delivered at St. Margaret's church, Lothbury, 1853 (-56). Selected from the Penny pulpit

The volume hereby presented to the reader was written and published in response to those missionary chieftains of the city of Cincinnati who took a vulgar renegade from Judaism by his hand, and appointed him a missionary to the Jews; and, notwithstanding the man's illiteracy, furnished him with a pulpit, and invited the Jews week after week by pompous advertisements in the public press and handbills freely distributed in the streets, to come and hear that renegade. The author, considering that uncalled-for action of church dignitaries an insult to Judaism, felt it his duty to resent it, and so he did. Here is an answer to the main question, why the Israelite can not embrace Christianity. Quite a number of books exists, in which the relative points are discussed, although the author recollects none written from his standpoint of universal brotherhood, universal salvation and universal religion, moral freedom, political equality and the supremacy of reason, with the highest respect for Judaism, Christianity, the Islam and every other religion in harmony with the postulate of reason and the standard of conscience. - Preface.

Heat Wave

Documentaries such as Zana Briski and Ross Kauffman's *Born into Brothels*, Michael Moore's *Fahrenheit 9/11*, Jeffrey Blitz's *Spellbound*, along with *March of the Penguins* and *An Inconvenient Truth* have achieved critical as well as popular success. Although nonfiction film may have captured imaginations, many viewers enter and leave theaters with a naive concept of "truth" and "reality"-for them, documentaries are information sources. But is truth or reality readily available, easily acquired, or undisputed? Or do documentaries convey illusions of truth and reality? What aesthetic means are used to build these illusions? A documentary's sounds and images are always the product of selection and choice, and often underscore points the filmmaker wishes to make. *Crafting Truth* illuminates the ways these films tell their stories; how they use the camera, editing, sound, and performance; what rhetorical devices they employ; and what the theoretical, practical, and ethical implications of these choices are. Complex documentary concepts are presented through easily accessible language, images, and a discussion of a wide range of films and videos to encourage new ways of thinking about and seeing nonfiction film.
