Wild Ride Home

As informative as it is lovely, *Homes in the Wild* is an adorable nonfiction picture book from author/illustrator Lita Judge that shows that wild creatures—from beavers to bobcats, and sloths to squirrels—aren't so different from us after all. Just like us, every baby animal has a home. Some live in complex burrows deep underground, others in simple nests high in the treetops. But all homes, regardless of where they are or how they're built, serve the same purpose: providing shelter where a baby can eat, sleep, learn, and stay safe while growing up. Animal lovers will delight in this gorgeously illustrated peek inside the homes—from burrows deep underground to nests high in the trees—where baby animals live and grow.

John Eldredge revises and updates his best-selling, renowned Christian classic. God designed men to be dangerous, says John Eldredge. Simply look at the dreams and desires written in the heart of every boy: To be a hero, to be a warrior, to live a life of adventure and risk. Sadly, most men abandon those dreams and desires—aided by a Christianity that feels like nothing more than pressure to be a "nice guy." It is no wonder that many men avoid church, and those who go are often passive and bored to death. In this provocative book, Eldredge gives women a look inside the true heart of a man and gives men permission to be what God designed them to be—dangerous, passionate, alive, and free.

Keeping the Wild

City girl Calla Fletcher attempts to reconnect with her estranged father, and unwittingly finds herself torn between her desire to return to the bustle of Toronto and a budding relationship with a rugged Alaskan pilot in this masterful new romance from acclaimed author K.A. Tucker. Calla Fletcher was two when her mother took her and fled the Alaskan wild, unable to handle the isolation of the extreme, rural lifestyle, leaving behind Calla's father, Wren Fletcher, in the process. Calla never looked back, and at twenty-six, a busy life in Toronto is all she knows. But when her father reaches out to inform her that his days are numbered, Calla knows that it's time to make the long trip back to the remote frontier town where she was born. She braves the roaming wildlife, the odd daylight hours, the exorbitant prices, and even the occasional—dear God—outhouse, all for the chance to connect with her father: a man who, despite his many faults, she can't help but care for. While she struggles to adjust to this new subarctic environment, Jonah—the quiet, brooding, and proud Alaskan pilot who keeps her father's charter plane company operational—can't imagine calling anywhere else home. And he's clearly waiting with one hand on the throttle to fly this city girl back to where she belongs, convinced that she's too pampered to handle the wild. Jonah is probably right, but Calla is determined to prove him wrong. As time passes, she unexpectedly finds herself forming a bond with the burly pilot. As his undercurrent of disapproval dwindles, it's replaced by friendship—or perhaps something deeper? But Calla is not in Alaska to stay and Jonah will never leave. It would be foolish of her to kindle a romance, to take the same path her parents tried—and failed at—years ago. It's a simple truth that turns out to be not so simple after all.

In this witty and exuberant collection of feminist retellings of traditional Japanese folktales, humans live side by side with spirits who provide a variety of useful services--from truth-telling to babysitting, from protecting castles to fighting crime. A busybody aunt who disapproves of hair removal; a pair of door-to-door saleswomen hawking portable lanterns; a cheerful lover who visits every night to take a luxurious bath; a silent house-caller who babysits and cleans while a single mother is out working. *Where the Wild Ladies Are* is populated by these and many other spirited women—who also happen to be ghosts. This is a realm in which jealousy, stubbornness, and other excessive “feminine” passions are not to be feared or suppressed, but rather cultivated; and, chances are, a man named Mr. Tei will notice your talents and recruit you, dead or alive (preferably dead), to join his mysterious company. In this witty and exuberant collection of linked stories, Aoko Matsuda takes the rich, millenia-old tradition of Japanese folktales—shapeshifting wives and foxes, magical trees and wells—and wholly reinvents them, presenting a world in which humans are consoled, guided, challenged, and transformed by the only sometimes visible forces that surround them.

Wild at Home

Dolman Travel Book of the Year 2012 Between the Orinoco and the Amazon lies a fabulous forested land, barely explored. Much of Guiana seldom sees sunlight, and new species are often tumbling out of the dark trees. Shunned by the conquistadors, it was left to others to carve into colonies. Guyana, Suriname and Guyane Francaise are what remain of their contest, and the 400 years of struggle that followed. Now, award-winning author John Gimlette sets off along this coast, gathering up its astonishing story. His journey takes him deep into the jungle, from the hideouts of runaway slaves to penal colonies, outlandish forts, remote Amerindian villages, a 'Little Paris' and a space port. He meets rebels, outlaws and sorcerers; follows the trail of a vicious Georgian revolt, and ponders a love-affair that changed the face of slavery. Here too is Jonestown, where, in 1978, over 900 Americans, members of Reverend Jones's cult, committed suicide. The last traces are almost gone now, as the forest closes in. Beautiful, bizarre and occasionally brutal, this is one of the great forgotten corners of the Earth: the Wild Coast.

“ This is a gorgeous, lyrical, hilarious, important book. . . . Read this and you may find yourself instinctively beginning to heal old wounds: in yourself, in others, and just maybe in the cathedral of the wild that is our true home. ” —Martha Beck, author of *Finding Your Own North* Boyd Varty had an unconventional upbringing. He grew up on Londolozi Game Reserve in South Africa, a place where man and nature strive for balance, where perils exist alongside wonders. Founded more than eighty years ago as a hunting ground, Londolozi was transformed into a nature reserve beginning in 1973 by Varty ’ s father and uncle, visionaries of the restoration movement. But it wasn ’ t just a sanctuary for the animals; it was also a place for ravaged land to flourish again and for the human spirit to be restored. When Nelson Mandela was released after twenty-seven years of imprisonment, he came to the reserve to recover. *Cathedral of the Wild* is Varty ’ s memoir of his life in this exquisite and vast refuge. At Londolozi, Varty gained the confidence that emerges from living in Africa. “ We came out strong and largely unafraid of life, ” he writes, “ with the full knowledge of its dangers. ” It was there that young Boyd and his equally adventurous sister learned to track animals, raised leopard and lion cubs, followed their larger-than-life uncle on his many adventures filming wildlife, and became one with the land. Varty survived a harrowing black mamba encounter, a debilitating bout with malaria, even a vicious crocodile attack, but his biggest challenge was a personal crisis of purpose. An intense spiritual quest takes him across the globe and back again—to reconnect with nature and “ rediscover the track. ” *Cathedral of the Wild* is a story of transformation that inspires a great appreciation for the beauty and order of the natural world. With conviction, hope, and humor, Varty makes a passionate

“ Deftly written, gripping and informative. Empire of Wild is a rip-roaring read! ” —Margaret Atwood, From Instagram “ Empire of Wild is doing everything I love in a contemporary novel and more. It is tough, funny, beautiful, honest and propulsive—all the while telling a story that needs to be told by a person who needs to be telling it. ” —Tommy Orange, author of There There A bold and brilliant new indigenous voice in contemporary literature makes her American debut with this kinetic, imaginative, and sensuous fable inspired by the traditional Canadian M é tis legend of the Rogarou—a werewolf-like creature that haunts the roads and woods of native people ’ s communities. Joan has been searching for her missing husband, Victor, for nearly a year—ever since that terrible night they ’ d had their first serious argument hours before he mysteriously vanished. Her M é tis family has lived in their tightly knit rural community for generations, but no one keeps the old ways . . . until they have to. That moment has arrived for Joan. One morning, grieving and severely hungover, Joan hears a shocking sound coming from inside a revival tent in a gritty Walmart parking lot. It is the unmistakable voice of Victor. Drawn inside, she sees him. He has the same face, the same eyes, the same hands, though his hair is much shorter and he's wearing a suit. But he doesn't seem to recognize Joan at all. He insists his name is Eugene Wolff, and that he is a reverend whose mission is to spread the word of Jesus and grow His flock. Yet Joan suspects there is something dark and terrifying within this charismatic preacher who professes to be a man of God . . . something old and very dangerous. Joan turns to Ajean, an elderly foul-mouthed card shark who is one of the few among her community steeped in the traditions of her people and knowledgeable about their ancient enemies. With the help of the old M é tis and her peculiar Johnny-Cash-loving, twelve-year-old nephew Zeus, Joan must find a way to uncover the truth and remind Reverend Wolff who he really is . . . if he really is. Her life, and those of everyone she loves,

Cathedral of the Wild

** "This memoir seems written directly from Hemp ' s soul, as she beautifully shares her moving story of learning to love and trust again after loss."--Booklist ** Christine Hemp's debut work of nonfiction, *Wild Ride Home*, is a brilliant memoir, looping themes of finding love and losing love, of going away and coming home, of the wretched course of Alzheimer's, of cancer, of lost pregnancies, of fly fishing and horsemanship, of second chances, and, ultimately, of the triumph of love and family--all told within the framework of the training of a little white horse named Buddy. *Wild Ride Home* invites the reader into the close Hemp family, which believes beauty and humor outshine the most devastating circumstances. Such optimism is challenged when the author suffers a series of blows: a dangerous fiancé , her mother ' s dementia, unexpected death and illness. Buddy, a feisty, unforgettable little Arabian horse with his own history to overcome, offers her a chance to look back on her own life and learn to trust again, not only others, but more importantly, herself. Hemp skillfully guides us through a memoir that is, despite devastating loss, above all, an ode to joy.

A New Kind of Wild

From climbing trees and making dens, to building sandcastles and pond-dipping, many of the activities we associate with a happy childhood take place outdoors. And yet, the reality for many contemporary children is very different. The studies tell us that we are raising a generation who are so alienated from nature that they

can't identify the commonest birds or plants, they don't know where their food comes from, they are shuttled between home, school and the shops and spend very little time in green spaces - let alone roaming free. In this timely and personal book, celebrated nature writer Patrick Barkham draws on his own experience as a parent and a forest school volunteer to explore the relationship between children and nature. Unfolding over the course of a year of snowsuits, muddy wellies, and sunhats, *Wild Child* is both an intimate story of children finding their place in natural world, and a celebration of the delight we can all find in even modest patches of green.

The Simple Wild

"Wild horses thrived for thousands of generations in the mountains, forests, and deserts of the American West. Their family herds existed in environmental harmony until man chose to "manage" them. Since then, every day more of America's wild horses disappear. But courageous people are trying very hard to reverse this, most notably, young people who feel a kinship with these often misunderstood creatures."--

Is it time to embrace the so-called “ Anthropocene ” —the age of human dominion—and to abandon tried-and-true conservation tools such as parks and wilderness areas? Is the future of Earth to be fully domesticated, an engineered global garden managed by technocrats to serve humanity? The schism between advocates of rewilding and those who accept and even celebrate a “ post-wild ” world is arguably the hottest

intellectual battle in contemporary conservation. In *Keeping the Wild*, a group of prominent scientists, writers, and conservation activists responds to the Anthropocene-boosters who claim that wild nature is no more (or in any case not much worth caring about), that human-caused extinction is acceptable, and that “novel ecosystems” are an adequate replacement for natural landscapes. With rhetorical fists swinging, the book’s contributors argue that these “new environmentalists” embody the hubris of the managerial mindset and offer a conservation strategy that will fail to protect life in all its buzzing, blossoming diversity. With essays from Eileen Crist, David Ehrenfeld, Dave Foreman, Lisi Krall, Harvey Locke, Curt Meine, Kathleen Dean Moore, Michael Soulé, Terry Tempest Williams and other leading thinkers, *Keeping the Wild* provides an introduction to this important debate, a critique of the Anthropocene boosters’ attack on traditional conservation, and unapologetic advocacy for wild nature.

"All the wild and lonely places, the mountain springs are called now. They were not lonely or wild places in the past days. They were the homes of my people." --Chief Francisco Patencio, the Cahuilla of Palm Springs

The Anza-Borrego Desert on California's southern border is a remote and harsh landscape, what author Lawrence Hogue calls "a land of dreams and nightmares, where the waking world meets the fantastic shapes and bent forms of imagination." In a country so serene and rugged, it's easy to imagine that no one has ever set foot there -- a wilderness waiting to be explored. Yet for thousands of years, the land was home to the Cahuilla and Kumeyaay Indians, who, far from being the "noble savages" of European imagination, served as active caretakers of the land that sustained them, changing it in countless ways and adapting it to their own needs as they adapted to it. In *All the Wild and Lonely Places*, Lawrence Hogue offers a thoughtful and evocative portrait of Anza-Borrego and of the people who have lived there, both original inhabitants and Spanish and American newcomers -- soldiers, Forty-Niners, cowboys, canal-builders, naturalists, recreationists, and restorationists. We follow along with the author on a series of excursions into the desert, each time learning more about the region's history and why it calls into question deeply held beliefs about "untouched" nature. And we join him in considering the implications of those revelations for how we think about the land that surrounds us, and how we use and care for that land. "We could persist in seeing the desert as an emptiness, a place hostile to humans, a pristine wilderness," Hogue writes. "But it's better to see this as a place where ancient peoples tried to make their homes, and succeeded. We can learn from what they did here, and use that knowledge to reinvigorate our concept of wilderness. Humans are part of nature; it's still nature, even when we change it."
