Prompted by mounting changes and mounting confusion in constitutional evidence law and by the new restyling of the Federal Rules of Evidence, this Edition presents the familiar student-friendly textbook, now with these improvements: Presents and digests the latest Confrontation Clause caselaw, including *Williams v. Illinois*, 132 S. Ct. 2221 (2012); Fully incorporates the restyled Federal Rules of Evidence; Surveys the latest scholarship and caselaw to assess the current validity of a range of forensic sciences; Presents new cases and problems throughout, while carefully retaining tried-and-true teaching tools, however old, that have shown no sign of wear. As with past editions, this new text addresses the intricacies of evidentiary law in a way students will find both engaging and intellectually compelling. The casebook and accompanying rulebook are wholly integrated, with paginated cross-references that encourage students to consult legislative history. The accompanying teacher's manual serves as a multi-resource companion for firsttime evidence instructors.

It is a slower-paced method that uses the same conceptual core of our original Adult Piano Course, but with several very important added features: more gradual introduction of music fundamentals, more pages of reinforcement and a greater emphasis on sight-reading exercises, one of the most important skills needed to ensure long-term enjoyment of the piano. Includes specially marked written exercises that can be completed away from the keyboard. The comb binding creates a lay-flat book that is perfect for study and performance.

### Musicianship for the Older Beginner

### Suzuki Piano School

The interest in piano and the desire to play, has increased tremendously in the past few years. Especially is this noticeable among adults who have either had some elementary piano instruction in their youth or have been denied this study for various reasons. This increased interest is partly due to the widespread influence of radio. Hearing music almost daily has become an integral part of our lives and it is this constant influence which has awakened a keen and natural desire to become an active participant. It is to the furtherance and stimulation of this natural desire that this course was planned. The adult approach has been kept constantly in mind, however not to the exclusion of certain basic principles which are necessary in order to make rapid and satisfactory progress. The logical and stepwise manner of progression in this course should prove of inestimable aid to both the student and teacher.
