Inspirational starting point for getting ready to build a cabin, whatever size, in the woods. The author puts you in control, only gives you tips and inspiration, not a step by step guide, which I found even more helpful. The book is oversized, intentionally giving you space in the margins to make notes.

YOUR CABIN IN THE WOODS The techniques of cabin building described here derive from the American pioneers, and Conrad Meinecke was truly possessed of the American pioneer spirit. The cabins he outlines from the simple framed tent and two-man squatter to the long house and five-room family cabin, are all built of wood and mortar per feet natural complements to the great outdoors. The author
